Suddenly the ability to make huge returns fast became enormous.

Overnight the Weeklys...which come out on Thursdays and expire 8 days later on Friday... became the hottest thing on Wall Street. Within a year volume for the Weeklys grew to nearly 12% of the 300+ million option contracts traded every month. For some exciting stocks like Apple and Google, Weeklys now make up an enormous 40% of all options volume.

The Advantages are HUGE!!

"Weekly's are like having your own personal ATM... This morning I made \$800 in less than 2 hours!"

—Melvin C., Perris, CA

And that's where my System comes in.

A Straightforward Approach to Trading Weekly Options

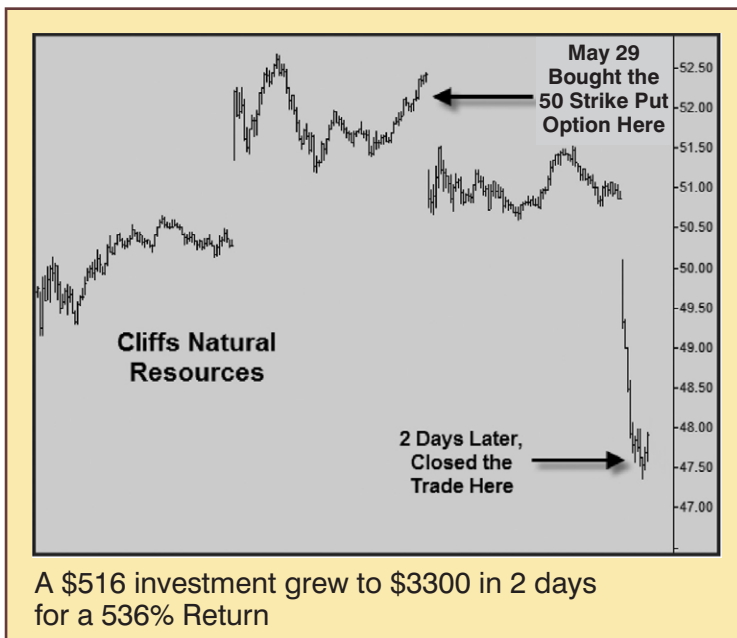

Trading weeklys is not only exciting because of the quick "weekly" reward potential, but they also offer numerous attractive elements that go above and beyond their longer-term monthly cousins.

So why weekly options over regular monthly expiring options?

1. Weeklys are inexpensive...expiration is within a few days, and sometimes within a few hours. You can purchase At-The-Money (ATM) Weeklys for as little as \$.50 cents or \$50 per contract. Lower prices means you have the opportunity to buy numerous contracts for the same trade investment.

A \$544 investment grew to \$1120 in 3 days for a 106% Return

2. **Weeklys have unbelievable leverage potential ...** Weeklys soar 400%, 600%, 1,200% or more on a very regular basis. Compare that with regular options (which may pay 30-50% or less) and the answer is obvious!
3. **Weeklys are easy to trade...** They trade just like everyday stocks. Volume is very high, so liquidity (finding a buyer/seller to participate in the trade) is never a problem.
4. **Weeklys are the most profitable way to trade predictable chart patterns...** An equity's chart can create predictable entry and exit patterns. These are everyday tradable patterns that are easily recognized as buyers rush in and drive up the equity price. Despite volatility that inflates monthly options, weeklys tend to remain affordable. Not only that, once the hype-event is over, implied volatility drops, and standard options deflate in a volatility crush. Meanwhile, Weeklys retain their value... turning the price move of the underlying equity into huge profits!
5. **Weeklys compared to monthly options bring in more opportunities for low-risk income...** Weekly options give you 52 opportunities a year to profit from a low-risk, recognizable pattern...40 more opportunities than monthly options.
6. **One week a month all stocks that offer regular monthly options become Weeklys...**

This special week opens the trading opportunity to not only the 150 or so weekly option stocks but includes thousands of trade candidates.

Low-risk...Unlimited Profit Potential...Gigantic Leverage...Solid Value on Fundamentally Sound Equities...and Consistent Income every single week...it's an Unbelievable Weekly Revenue Stream! Fantastic!

“As soon as we hit a profit of 30%-40% we get out. And that's given us a very nice revenue stream”

Bob and Fran enjoy a rich and fulfilling lifestyle... Summers in the mountains of North Carolina and winters in Thailand, where they have the privilege of competing with some of the world's top martial artists. We have traders from all walks of life!

Let's see what Bob and Fran's trading day looks like...

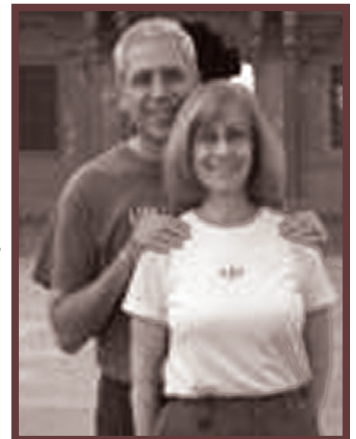

“We look forward to every trading day. It's fun and very rewarding both financially and as an uplifting experience.”

“This morning I made three trades, all profitable. That took about 20 minutes. And I made a little over \$1,000!”

“The way Wendy's put it all together; even a new investor could easily catch on. And she's always around to help. I don't know how she does it all. But it's a real good feeling to have her there. She makes you feel like you're the most important person in the world.”

I blush at the way Bob goes on. But I hope he's made you realize three things...

1. My approach to trading options is easy to do and doesn't take much time.
2. You'll get all the help you need to succeed and have fun doing it.
3. There's loads of money to be made.

“\$60 To \$1300!!”

“The calls I bought for 460 each went up to \$750 each – at expiration they were \$1300 each!!! Thanks for sharing your method and getting me on the right track!”

—Joe D., Anchorage, AK

“315% Gain in 45 Minutes”

“I found Herbalife (HLF) and followed your instructions in the book and bought the option at 10:28 am. Here is the scenario:

Buy 10:28 am	Price 2.10
Sell 11:13 am	Price 8.75
Profit \$665 per contract or 315% Gain in 45 minutes	

Just wanted to say thank you so very much for making this invaluable information available for so little cost. I could not be happier.”

Melvin looks at these rules as his own personal ATM...

“Weeklys are like having your own personal ATM... This Morning I made \$800 in less than 2 hours!”

Melvin C., Perris, CA

When the market went bust, Melvin lost his job as the property manager for a California real estate company. And sadly, a long stretch of lean times followed. Until one day, a year ago, he stumbled across my options program. And in an instant, his financial outlook was forever changed.

“The weeklys are like having your own personal ATM. Most days I can go to my computer, pull up my charts, and walk away an hour later with \$130 or more.

This morning I made \$800 in less than 2 hours. I bought 10 QQQ's at around 7 am pacific time. And they shot up \$1 right away— \$650 profit on a trade that cost me \$630. And by the time I got out, I'd earned \$800.

This is my livelihood now. I trade full time from home. And I'm happy to say, it pays the bills.

And Wendy's chat room makes it a lot of fun too. We all sit around, chit chat and watch the market together. Socializing with Wendy and all the other traders makes the time go really fast.

I started out using Wendy's P3 System on daily charts to trade monthly Calls – which works great and I still trade monthly options.

But the same system on 10-min and 15-min charts works amazingly well for day-trading weekly options.

I like the weeklys because they move fast and they're cheap. If it costs you \$600 to get into a weekly, it would probably cost you \$1100-\$1200 with regular options.

Next I want to learn Wendy's T3 system to trade Puts. That way I can make just as much money when the market goes down.

I'm able to consistently earn \$3,500 a month trading just Calls- - 10 contracts at a time. So, when I start trading Puts too, I figure I should be able to double my income right away—before I

even think about trading more contracts.

If you follow Wendy's system and stick to the rules, you really can't go wrong.

Sometimes my 11-year old daughter will look over my shoulder and say, "Are we waiting for the chart to go up?" And I'll say, "Yep, we're waiting for it to shoot all the way up!"

"I'm happy with a few hundred bucks once or twice a day...it's a comfortable way to trade"

Dollie A., San Luis, Arizona

When her husband retired, Dollie wanted more spending money so they could travel, visit the grandkids, and make their "golden years" truly golden. So she went on a search for ways to supplement their income and Wendy provided the perfect solution.

"The reason I bought Wendy's system is because it looked simple, and the money it promised was just unbelievable. And you know what, she didn't exaggerate one bit.

It really is exciting how Wendy has grouped these indicators in such a way that it points you right to where the profits are. It's like Wow...I love it!

I like to day-trade the weekly QQQs using 1, 10, and 15-minute charts loaded with all her indicators. So, when I turn on my computer, plunk!

It's all right there – like a radar screen. And when everything lines up, you know it's time to make your move.

Early in the day you might get a signal to buy Calls. But when you see that it's run its course and change is in the wind, you take profits.

Then you watch for a signal to buy Puts and enjoy the ride back down.

I know a lot of people say you can't tell where the price is going. But I've found, with Wendy's charts you can tell where the price is going.

I usually trade 10 contracts and I put in a 32 cent profit target. I'm happy with a few hundred bucks once or twice a day. For me, it's a very comfortable way to trade. Even though it means I don't get the exciting homeruns some people do.

Like the gal in Wendy's chat-room the other day who bought Netflix for 75 cents and sold it for

"I think Wendy is the greatest person in the world. She doesn't have to do everything she does for her people. But I'm sure glad she does!"

Katie M.

"I've won 4 out of 5 trades And it's so exciting. I just love it!"

Katie M. is recently divorced and has been struggling to make ends meet. Determined to keep the home she's lived in for 20-some years, she turned to trading as a way to supplement her income. And apparently it's worked out very well...

"I tried to learn how to trade options through another program first. But it just totally wore my brain out."

"So I got the internet and found Wendy's book. I bought it as a Christmas present for myself. And it was very lucky I did."

"I have no one around me to talk about this with and that's why I love the women and the guys that I've met in Wendy's chat room. They're also helpful and friendly. Wendy's in there just about every day too."

"Going through divorce at my age was the hardest thing I've ever had to deal with. The camaraderie, fellowship and support of Wendy's chat room helped me tremendously. I think Wendy is the greatest person in the world. She doesn't have to do everything she does for people. But I'm sure glad she does!"

"In February, for my valentine's present, I made my first real trade. And I'm doing really well. I've won 4 out of 5 trades. And it's so exciting. I just love it!"

"For example, Friday morning I bought a John Deere Tractor option for \$460. But I didn't wait to stay in the trade over the weekend. So I sold it at the end of the day and got \$595 for it. That's like a 30% profit in just a few hours!"

"When I went for my divorce I thought, I'll do whatever it takes to keep my house. It's such a relief to know I don't need to worry about it anymore. I'm not getting any younger, but I'm getting happier!"

Maybe money can't buy happiness, but it sure can ease a lot of stress. And that spells happiness to Katie. How about you?

–continued on page 8

\$2.50; I think it was. Anyway, she made a quick \$1,900 profit. Now that's exciting!

In Wendy's chat we all share. It doesn't matter if you're a newbie or a real experienced trader. We're all using the same tools and we all learn from each other, as well as from Wendy.

The more time you spend in the room, the more you learn. And the more confident you become.

Just one more thing I want to say is that Wendy is a genuinely nice person with a sincere interest in helping people. A real Southern Lady. And boy is she ever smart. When it comes to trading options, she really knows what she's doing!"

In a minute I'll tell you about all the ways I'm going to help you succeed. But right now, let's let Jane tell her story.

"I can't tell you how wonderful the System has been for me, all the way around."

"I'm 72 years old. And I have avoided the stock market my entire life. But now, not only am I making lots of money. I have the self-realization that I can do it and that I can do it well."

"I am just thrilled. I have a whole new life. It's just awesome. I can't pull myself away when the stock market is open... I'm addicted to it!"

Jane may be 72, but I think you'll agree she's way too frisky to be considered old... And she's not the only one who has found earning fast, easy profits addictive. Actually, you hear it quite a lot. Winning is addictive,

A \$400 investment grew to \$970 in 2 days for a 145% Return

plain and simple. And with the way my system stacks the odds in your favor, you just can't help but win!

"The odds are always in your favor...I made \$8,000 on Apple in 10 days, and that's just one example!"

—Carl M., Retired Telephone Lineman

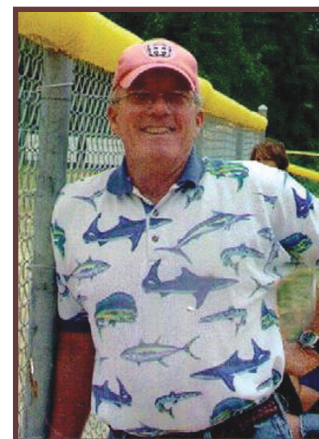

I met Carl in an online chat room. He'd been trading penny stocks with mixed results and was looking for a new direction. The minute he saw what the system could do, he was hooked!

"I didn't really have an interest in options until I met Wendy in a chat room. She has a way of explaining things to where any everyday individual can understand it and make good money at it."

"Like, I made \$8,000 on Apple in 10 days, and that's just one example."

"Profits like that, you kind of get addicted. Same as a gambler would, except this isn't gambling. You know the odds are always in your favor before you even get in."

"I watch the market off and on all day. Like today, I'd work in the garden awhile and then I'd run in and see what's

going on. All tolled I might spend an hour a day in front of the computer.”

Yes indeed. Putting the odds of winning on your side is what my system is all about.

Doubling Your Money Can Be Addicting!

Back on March 2 I bought \$506 of Goldman Sachs Puts. Sold them on March 6 for \$2,024 or \$1,449.80 profit. That's 296% profit in 4 days.

October 19 bought Wynn Resorts puts for \$423 and sold the next day for \$1,059. 146% profit in a day.

June 7 spend \$512 for Las Vega Sands puts which were sold the same day for \$1,280 and a 148% profit. And the next day I sold my \$495 Market Vector Gold puts for \$1,727 and a 245% profit in 2 days.

As Terri can tell you, making \$1,000, \$2,000, even \$3,000 a day is just as easy as making \$100.

And it's 10 times as much fun!

"I religiously make \$2,000 to \$3,000 a day"

Terri F., Retired Accountant

Thirteen months ago a debilitating back condition forced Terri into early retirement. Bored to tears, she browsed investor chat rooms, looking for something productive to do with her time. Until one fateful day, she discovered my System for trading options...just what the doctor ordered!

With enough time and money to play the game anyway she wants, Terri finds the fast paced thrill of day trading irresistible.

"Getting in at the low and out at the high is an obsession with me. I want every last bead of sweat on its back. And I usually get it."

"I don't sit in front of the computer all day every day. But when I do trade, I religiously make \$2,000 to \$3,000 a day."

"It's pretty simple, really. The System is totally rule based. So, all you have to do is follow the rules and you're going to make money."

"And when you really nail it...like I did with BP to the tune of about \$10 Grand...you're just so proud of yourself. It's like Yes!!!! No problem teaching this old dog new tricks!"

WOW...what a dynamo! Terri is enjoying a

renewed energy she thought was gone forever!

Whether you favor fast-paced day-trading or slow-and-steady swing trading, the sheer joy of winning can give you a whole new "lease on life"!

Diane has no time...little money... and is new to options. And now has a whole new financial outlook.

"Weekly options let me jump in and out of the market without investing a huge amount of time or money. And following Wendy's strategies, I've come out a winner about 80% of the time!"

My career in sales involves a lot of travel. And monitoring trades from an airplane isn't feasible. So, there's no way I could really delve into trading monthly options. I wanted to. I just didn't have the time.

But with weekly options you can be in and out in a matter of hours. So, whenever I get a day off, you'll find me in front of my computer, day-trading the weeklys.

First, I print out Wendy's list of stocks to watch. Then, one by one I put each symbol into the chart setup I created to look just like Wendy's. And I also log into her chat room, so I can see what everybody else is up to.

Usually I'm in a trade within an hour of the opening bell. At least I try to be. But you can't rush these things. It's important to be patient and wait until all the indicators in all the time frames line up.

And then I'm out again before the market closes.

The way Wendy puts her indicators together is different than anything I've ever seen before. And I'm still getting the hang of it. So right now, I only trade 1 to 3 contracts, depending on the price of the option.

I'm not saying that her system is hard; because it's not. In fact Wendy's way of trading is pretty straightforward. But, weekly options move very fast. So I want pulling the trigger at the right time to come as second nature before I up the ante.

Of course, if I keep winning 4 out of 5 trades, I'll be working my way up to 10 or even 20 contracts in no time. And at that rate, my retirement account is going to soar!"

Kirkland Weekly Wealth Advisory

The results are based on a starting balance of \$10,000, with approximately \$500 allocated per trade.
Although commission costs may vary, for this report they're estimated at \$8 in and \$8 out plus \$.10 per option.

Meet the Author *Wendy Kirkland*

How did an award-winning artist and sculptor, who owned an eclectic gift shop in Historic Biltmore Village, end up an option guru? Let's see...

- A freak flood left Wendy's store in ruin and forced her to find a new source of income. Determined to secure her financial future, Wendy turned to option trading and the leverage it offers.

- Inspired to help other women

enjoy the financial security she had found, Wendy launched WomenOptionTraders.com and began giving online classes. "As I teach other women to successfully trade options, I become a better trader myself", she said.

- A natural-born teacher, her following grew quickly and so did requests for an easy-to-understand book on options. So in 2009 Wendy co-authored, with Virginia McCullough, "Option Trading In Your Spare Time—A Guide to Financial Independence for Women".
- Insightful, comprehensive, and easy-to-read, "Option Trading In Your Spare Time" received rave reviews. And get this: undeterred by the title and pretty pink cover, more men than women bought the Guide to Financial Independence for Women, now in its second printing.
- Then, in 2010 a major uprising...online traders, men and women alike, heard that Wendy's P3 System produced nearly 100% winning trades and they wanted in. With a generous heart Wendy began publishing a weekly list of stocks which meet the stringent P3 System criteria. Subscribers unanimously report a higher percentage of winners, greater monthly income, and a vastly improved financial outlook thanks to Wendy's P3 System and Squeeze Newsletter.
- When TradeWins Publishing heard about Wendy's miraculous discovery and tremendous success, they called her right away and *P3: Putting Probability Potential on YOUR Side* was published in 2010.
- With the advent of Weekly Options after 2010, a huge new window of opportunity opened for experienced options traders. Applying Wendy's principles to the Weeklys, the profits have been astronomical...uncovering money doublers and triplers with amazing frequency. In the first 8 months, Wendy doubled her money or better 43 times. 41 times in 1 or 2 days, then again once in 3 days and once in 4 days.
- Wealth Building With Weekly Options...this is your key to financial freedom. So sit back. Put your feet up. And enjoy your first step on a wonderful adventure.

Let me show you a great way to join Diane and the others making money with Weekly Options.

Since the trades have not actually been executed, the results may have under or over compensated for the impact, if any, of certain market factors, such as lack of liquidity. Simulated trading programs in general are also subject to the fact that they are designed with the benefit of hindsight. In addition, hypothetical trading cannot completely account for the impact of financial risk in actual trading. The ability to withstand losses and adhere to a particular trading program are material points which can adversely affect actual trading results. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown.

"Wendy's System is the best thing that's happened to me" —Mark K., Retired Deputy Sheriff

"When I left the Sheriff's Dept., I looked to the stock market to supplement my retirement pay. And I have to say, everything's been going much better since I found Wendy's System."

"It's like Wendy took her God-given intuition, that 6th sense that women seem to have, and she applied it to trading options."

"Then she laid everything out in such a way that it doesn't take intuition to do anymore. It's cut and dry. You, me, or anybody else can see what she sees plain as day and can make just as much money as she does too."

"Working in law enforcement can make a man cynical. But I know this to be the real deal. Wendy's System is the best thing that's happened to me, moneywise, since I retired."

If not this, then what...If not now, then when?
