It will give you the power and know-how to transform all those ideas that fill the back of your mind into a thriving, profitable and rewarding business.

This exclusive program gives you the tools ... the little-known secrets used by the world's most successful entrepreneurs ... to move from being an ordinary employee to being the successful owner of any business you choose.

It's called *The Entrepreneur's Program*. And I know you will see and feel the difference it makes in your life right away. Imagine...

You will no longer be chained down to someone else's business -- no longer subject to someone else's whims. You will never have to worry about layoffs or downsizing. Corporate politics will be a thing of the past.

See For Yourself! Send For Your Entrepreneur's Starter Kit Today! It's **ABSOLUTELY FREE!**

You are your own boss! *The Entrepreneur's Program*, makes it easy to start your own business and get on the road to financial freedom. Now you will keep all the profits for yourself instead of working for someone else.

And here's a big difference. Unlike many other entrepreneurs, you will NOT be a slave to your business. You will work the hours you want. You will spend time with your family and enjoy life. You will vacation whenever you want ... and you will be able to afford vacations in places others only dream about because your business will be booming!

Yes, if this is what you want, then *The Entrepreneur's Program* is exactly what you need. *The Entrepreneur's Program* gives you the step-by-step know-how to make it all happen! Now! Fast! Easy!

It's Like Having Successful Entrepreneurs Ready To Help You Succeed 24 Hours A Day!

The Entrepreneur's Program is a complete training course and reference guide on smart business practices. With it you will have instant access to the expertise and experiences of entrepreneurs who've been in your shoes ... and made it big! You will have proven, real-world answers at your fingertips to solve many of the problems you could face as an entrepreneur.

I promise you don't need a college education to understand *The Entrepreneur's Program*. And this is NOT a bunch of boring reading you'll never use or enjoy.

The Entrepreneur's Program is specially created so you'll learn -- and use -- everything you see. It's packed with charts, templates, case studies, sample forms and diagrams; all presented clearly in plain english. This practical and unique teaching method was specially created just for busy entrepreneurs like you! In fact ...

You can learn and master all you need to know in as little as 2 of the most enjoyable hours you'll spend each week.

In 30 fact-packed sections, *The Entrepreneur's Program* shares with you the real-life experiences of successful entrepreneurs -- experts at the very top of their professions. Each lesson teaches you the right way to master critical business skills like ...

- How to make your sales explode
- Improving your financial profile
- Marketing strategies and techniques that work
- Cash flow budgeting & forecasting
- How to lighten your tax burden and pay as little as legally possible
- Planning and establishing goals

- How to easily raise capital for your business
- Successful and powerful advertising strategies
- The easiest, most effective way to set up & keep books

You get first-hand, practical knowledge of what actually happens -- and works -- in the real world of business today, and what doesn't. You'll be learning from the actual day-to-day experiences of others (NOT text-book theories that fall apart under the pressures of real life). And you'll know what to do, as well as what NOT to do.

Believe me, the exclusive, proven and time-tested information you'll get in *The Entrepreneur's Program* will give you a huge advantage in making your dream of a financially secure business a reality. And you NEED every advantage you can get because ...

40% of New Businesses Are Doomed To FAIL!

Entrepreneurship in America is booming. According to a 1996 study by the Entrepreneurial Research Consortium (ERC), more than 35 million U.S. households have had an intimate involvement with a new or small business. And it's no wonder.

With more and more companies downsizing and laying off employees, job security is a thing of the past. **The only way to have true job security and to live the life of your dreams is to have a company of your own, where YOU call the shots.**

But before you rush out to start your own business, you should know it won't be easy. And without the proper help and training ... it's almost impossible to succeed. According to the ERC report, 14.2 million households have been involved in a failing business.

Fortunately, *The Entrepreneur's Program* can change those odds in your favor. It can help save you from becoming one of the statistics -- prevent you from being just another small business owner who doesn't make it. And you will NOT become a business owner who is stuck barely making enough money to scrape by. **You will be far from these situations!**

With *The Entrepreneur's Program*, You Can Become One Of The Businesses That Makes It BIG!

The sad news for these failed businesses ... and the outstanding news for you ... is that most of these failures are 100% preventable!

You see, the reason most businesses fail is NOT because the owner doesn't have good ideas ... NOT because there's no market for the product or service ... NOT because the owner doesn't work enough hours. And they certainly don't fail for lack of the burning desire to succeed.

Studies by the U.S. Small Business Administration show that the single greatest cause of business failure is poor management.

The Entrepreneur's Program teaches you proven business management skills to make sure you succeed. Each section is a concentrated course in critical managerial expertise. For exam-

ple, you'll learn:

- How to start your business with barely any up front money
- How to cut costs without cutting quality ... or profits
- Skills to make you a successful business owner
- How to negotiate for success and get whatever you want
- Specific steps to turn any business from failure to success (for many, this one section alone is priceless).

Get Answers. Solve Problems. Avoid Failure.

If you're like most entrepreneurs, you love coming up with great new ideas. And you will work tirelessly to make your business a success. But **working hard is not enough**. The road to the American Dream is littered with smart, hard workers who failed.

The secret to your success is in working at the right things. You need to know the best, proven ways to build and run a business ... strategies, tips & techniques that make you the most money. That's exactly what *The Entrepreneur's Program* teaches you.

And please don't make this critical mistake. Please don't let your pride stand in the way of your success. No one, not even the most gifted entrepreneur, is born with all the answers in his or her head.

***The Entrepreneur's Program* is like a sturdy bridge you can trust to span the gap between your great ideas, and the business basics that are vital to your success.**

It gives you all the knowledge you need to solve problems and prevent costly mistakes that could cause your business to fail. For example,

- How to hire employees that will be honest and trustworthy
- How to get a supplier to happily honor his commitments
- How to keep your banker happy and helpful and willing to lend at all times
- What to do when a competitor seems to gain an edge
- How to find the very best location for your business (It's NOT where you might think)
- 6 ways to get overdue customers to cheerfully pay-up fast
- How to choose the right computer system for your business -- and get a great deal
- 8 ways to know if a franchisor is telling the truth
- When to go to small claims court ... and how to make sure you win!
- Your key client threatens to take his business elsewhere. Do this fast ... or else

Take Charge Of Your Life, Be In Control Of Your Own Business
