

# Human Growth Hormone...

# Makes You Look and Feel 20 YEARS YOUNGER!

## “Growing Old Is Not Inevitable”

### The Scientific Evidence Is Overwhelming

The North American Academy of Anti-Aging Medicine, with 5000 members, states that the body's reduced production of human growth hormone is a primary cause of aging.

### Growth Hormone Decreases 75% From Age 20 to 70

From the age of 20 to 70, Growth Hormone levels in your body fall by more than 75%. And you look and feel older. Practically EVERYONE over the age of 40 has a Growth Hormone deficiency. The evidence is everywhere...

- You gain weight
- You lose muscle mass
- Your eyesight, sexual energy and vigor decrease
- You don't feel 20 anymore!!

**Growth Hormone Decline**

### Do You Suffer from ANY of These Signs of Aging?

- Wrinkles, Fine Lines
- Poor Memory
- Lack of Enthusiasm
- Sagging Skin
- Diminishing Eyesight
- Failing Sexual Performance
- Low Energy
- Skin Problems
- Weight Problems
- Sleep Difficulties
- Blood Pressure, Low/High
- Lack of Muscle Tone
- Joint Problems

### Increasing Growth Hormone May Reverse Aging

Over a hundred articles published over the last 20 years in the *New England Journal of Medicine* and other leading Medical, Scientific and Research Journals show that INCREASING HUMAN GROWTH HORMONE (HGH) may reverse human biological aging and make you look and feel younger.

- Wrinkles disappear
- Fat decreases – without exercise
- Lean muscle mass increases
- Hair color is restored
- You regain lost vigor
- Your memory sharpens

### Why This Discovery is So Important

While Growth Hormone (GH) and Botox are just two of the many products used to deter some of these signs of aging... now there is a new safe and effective option, Soma HGH, developed by Cambridge Research and Med Tech Labs, that goes far beyond the scope of either one to not only significantly reverse the signs associated with normal aging, but to help increase vitality, improve sleep, stabilize emotions, improve bone density, increase sexual potency, increase mental alertness, control appetite, and strengthen all internal organs and tissues.

### Take 20 Years Off Your Age

Dr. Daniel Rudman's study in the *New England Journal of Medicine* represented the biggest breakthrough in anti-aging medicine at the time and led to a wide acceptance that, “The overall deterioration of the body that comes with growing old is not inevitable.”

Dr. Rudman studied men between the ages of 61 and 80 who were overweight. These men did not alter their diet, exercise, or smoking habits. When they were given HGH, they gained an average of 8.8% in lean muscle mass while losing 14% of their body fat. They experienced localized increases in bone density and their skin became thicker and firmer. The subjects of this study reversed these parameters of aging by 10–20 years.

### How to Look And Feel Years Younger

There are two important methods to reversing the signs of ‘normal’ aging. One is expensive and painful, the other natural and less expensive without pain.

#### 1. Expensive Shots

Since the late 1970's anti-aging clinics have provided monthly injections of Synthetic Growth Hormone (GH) to wealthy clientele at a cost of \$1,000–\$2,000 per month. And can take up to three months or longer to see any promising results. Many peo-

#### Fountain of Youth Inside...

Dr. Ronald Klatz, world renowned expert on anti-aging, founder and president of the American Academy of Anti-Aging Medicine: “By replenishing your supply of growth hormone, you can recover your vigor, health, looks and sexuality. For the first time in human history, we can intervene in the aging process, restore many aspects of youth, resist disease, substantially improve the quality of life, perhaps extend the life span itself. The ‘Fountain of Youth’ lies within the cells of each of us. All you need to do is release it.”

#### Increase Lean Body Mass...

Daniel Rudman, M.D., *New England Journal of Medicine*: “The effects of six months of human growth hormone on lean body mass and adipose-tissue were equivalent in magnitude to the changes incurred during 10-20 years of aging.”

#### Reverse Aging...

Dr. Anthony Karpos, M.D.: “We really have something here which may be able to reverse some of the problems associated with aging.”

#### Improve Quality of Life...

Dr. Thierry Hertoghe, M.D. “I find it sad that people are aging, have a lesser quality of life, and die.

ple don't like the idea of having an unnatural substance being injected into their body, on a daily basis.

#### 2. Cutting Edge Nanoscience

In recent years, European pharmaceutical science and cutting edge nanoscience have discovered a modern breakthrough, which uses nanosized doses of substances to activate the body's own healing process to form a natural aid for premature aging, wrinkles, hair growth and color restoration, and strengthen all internal organs and tissues.

### Nanotechnology Key to Erasing Signs of Aging

Cambridge Research has taken a giant step forward to significantly reverse the signs and symptoms associated with aging.

**Not by shots** – which are expensive, inconvenient and hurt.

**Not by pills** – which are subject to attack by the digestive system.

**But by a simple Oral Spray** – (Sublingual absorption). The Oral Spray (Sublingual) technology Cambridge Research Laboratories uses has been shown to have up to a nine (9) times higher absorption rate than pills!

The 17 botanical extracts combined in Soma HGH are prepared in accordance with the Homeopathic Pharmacopeia of the United States and are recognized as official medicines under the Federal Food, Drug, and Cosmetics Act.

They contain no narcotics, are not habit forming, and have none of the dangerous or unpleasant side effects of synthetic drugs. They are among the safest preparations known to medical science.

### The Results Are Dramatic

Medicine does not have to be expensive and painful to work. Soma HGH works on the whole person, not just endocrine hormones. Using Soma HGH Anti Aging Formula as directed, improvements can often be noticed within a few minutes. Just spray several times daily in your mouth until the aging symptoms and wrinkles improve.

Soma HGH works for all signs of premature aging to:

- Help diminished wrinkles

#### WorldPowerlifting Champion says:

“I am a powerlifting champion and hold a number of world records. I had a hard time believing Soma HGH would work. I was completely blown away! I regained the strength of my youth and won the 1999 World championship. Now, I look better at 41 than I did at 21. My skin feels really soft. My waist shrunk 2 inches and I started seeing abs again. Awesome! Now I am ready for the beach. No more t-shirts for me. **Mr. R.S. of Alabama**

**Ms. L.C. of New York says:** “I have been taking Soma HGH for 6 weeks and already my energy level is increased. I sleep better than I have for years. I am 54 and have always had difficulty losing weight – my friends say I look trimmer and younger. My skin looks and feels better. I feel rejuvenated. Thanks to Soma HGH!”

### Six Months to a Younger You

#### In the FIRST MONTH:

You should expect: Improved stamina; better and sounder sleep; more optimistic attitude; increase in energy (some report they “feel 16 again”).

#### In the SECOND MONTH:

You will see: Improved muscle tone; enhanced sexual function; improvement in nail growth; improvement to skin tone; better digestion; increase in strength; weight loss.

#### In the THIRD MONTH:

Mental processes improve, including desire to do and complete projects; muscle size increases, especially if the individual works out; hair growth; reduction in PMS symptoms; increase in sexual desire; greater body flexibility.

#### In the FOURTH MONTH:

Same as above. Generally, most improvements are heightened and are more consistent.

#### In the FIFTH MONTH:

Impressive weight loss and reduction of inches, since fat is reduced and muscle tissue is increased and toned; improvement to skin texture and appearance; thickening of skin and greater elasticity; reduction of the appearance of wrinkles; thickening of hair with a shiny and healthy appearance.

#### In the SIXTH MONTH:

This is the really exciting stage! Cellulite greatly diminishes; body is much more contoured; eyesight greatly improved; better emotional stability; stronger resistance to colds, flu and other illnesses; some pain

### Here's What Ex-Major League Baseball Player says about Soma HGH:

“I played in the major leagues for 8 years and have been in professional baseball playing and coaching for over 20 years. I have been taking Soma HGH for 2 months and I have lost 11 pounds. My 49-year-old body is free from pain. Each morning I jump out of bed like I did when I was 21. I look forward to a great year of coaching baseball and I would like to thank you very much for Soma HGH.”
