

“How I Eat Tons of the Great Foods I Love ... and Still Lost 30 Pounds!”

By Jeannie Corcoran Business Executive Age 42, St. Louis, Missouri

I've always been an overeater and I don't like to exercise.

I felt depressed inside because of my weight even though I appeared happy on the outside.

I was devastated when my girlfriends and I went shopping because I noticed that men were looking at all my girlfriends -- but never me!

I've tried over 20 different weight loss plans and pills over the years. I would always struggle to lose a little weight, but then gain it back.

One day a friend told me about Dr. Scott Lewis' plan. I lost 30 pounds in five weeks and I've kept it off for almost a year! Finally, this was the answer for me!

Now I eat what I want! I do what I want! Everything about Dr. Lewis' program has been pleasant, relaxing and easy.

You will say the same thing soon because nothing is faster or easier than this. Does this sound like a diet to you?

You can eat plenty of satisfying and rich foods morning, noon and night every day! You will never feel hungry, deprived or like you're dieting -- never!

It's 100% natural and safe

NO calorie counting. NO shakes or pills. NO prepackaged or tasteless foods.

You'll soon feel so much better physically and emotionally.

You will look better and have a better self-image.

Your weight will stay off permanently -- no more gaining it back -- no more yo-yo effect.

Dr. Lewis' weight loss plan is proven to work. It has already been used by over 150,000 people around the world. And what I really like best about it is that the weight is gone for good!

That's because Dr. Lewis' plan is NOT some hard to follow diet that makes you

starve and deprive yourself. It's NOT something you want to quit. It's a whole new way to eat huge amounts of all the foods you love. You eat what you love ... you NEVER go hungry ... and you stay thin for good!

Dr. Lewis is a chiropractic physician and nutritional expert. He is the author of "The Breakthrough Formula", an international bestseller, and he's coached hundreds of patients on weight loss, conducted seminars and even hosts his own radio show on weight loss. No wonder this plan works!

I know what you're saying, "How can I eat so much of all the tasty food I love and still lose weight?"

It's simple. You WON'T be dieting. You will be eating special combinations of every day foods that work together to promote "thermogenesis." That means your body will be turned into a super fat-burning machine 24 hours a day. You lose weight and stay slim forever!

Look, I've been a diet failure all my life until now, so if I can lose 30 pounds easily and keep it off, so can you with Dr. Lewis' plan.

Here's what some other people have to say about this amazing discovery:

"I've lost about 10% body fat as well as losing 25 pounds. It really just came natural and I started to notice results immediately."
--Kirk, 32, salesman (**city,state**)

"I feel wonderful! It is a very relaxing, calming experience. It's given me a new lease on life. This is the best investment I've made for myself and my family."
-- Benson, 45, attorney (**city,state**)

"I have lost 30 lbs. in 9 weeks!"
-- Debra, 29, mother of two (**city,state**)

"I highly recommend it. I have no will-power and this is the way to do it --

because you don't need any will-power -- my weight loss just happens."
-- Angie, 52, teacher (**city,state**)

Thank God I found this. I feel so happy these days now that I'm slim and firm.

No more feeling down. And the other day a handsome man even flirted with me at the dry cleaners!
