# ***10 Little-Known Stock Bargains*** That Will **Triple Your Money** Soon!

Dear Friend,

If you're like most people in today's market, you are disappointed.

**Fortunately, readers of my *NASDAQ Advisor* newsletter are NOT like most people.**

You see, while the markets have taken a nose-dive recently, my readers and I have been raking in huge profits on little-known stocks like these in just the past year:

- ✓ **559% PROFIT** on D&K Healthcare Resources Inc.
- ✓ **350% PROFIT** on Genesis Microchip Inc.
- ✓ **285% PROFIT** on OmniVision Technologies
- ✓ **471% PROFIT** on Microsemi Corporation
- ✓ **143% PROFIT** on Advanced Marketing Services, Inc.

And that's just the tip of the iceberg!

**FREE REPORT reveals tomorrow's big-profit "blue-chip" stocks that will triple your money fast!**

After painstaking research, we have just identified ten more up-and-coming stocks that are so hot, they could easily make you 3 to 10 times your money by the end of 2003, and ...

*Free Report  
for You!*

I outline all the facts on these soon-to-skyrocket stocks in a sizzling new report I just finished called *Top 10 NASDAQ Stocks with Explosive Value*.

And I want to rush you a copy **ABSOLUTELY FREE!**

This vital new report spells it all out so you can confidently buy these "diamonds in the rough" at bargain-basement prices today ... before they become discovered ... and skyrocket to huge profits for you in just a few weeks or months.

**Get rich on the Microsofts and Dells of tomorrow!**

It surprises me that so many people have no idea you can make incredible profits and become rich on stocks nobody ever heard of.

They forget that there was a time when no one knew about stock giants like Microsoft or Dell because they were new and small. But look at what happened to those few investors who were shrewd enough to get in on the ground floor. They made an easy fortune!

**The same, incredible profits can be yours with the hot, new "undiscovered" stocks I will reveal in your FREE report!**

Thousands of loyal subscribers, and one look at my documented track record, prove that I can help you triple or quadruple your money on little-known stocks, quickly, no matter what the market averages are doing.

For example, I guided my readers to these documented profits on "no name" stocks in less than one year:

- ✓ **618% PROFIT** on Danka Business Systems!
- ✓ **296% PROFIT** on Badger Paper Mills, Inc.
- ✓ **689% PROFIT** on Multimedia Games, Inc.
- ✓ **643% PROFIT** on The Quigley Corporation
- ✓ **576% PROFIT** on Toymax International.

Now you can have all the "inside" information on the newest Microsofts and Dells of tomorrow for **FREE!**

It's all in the profit-packed special report I will send you free when you respond within the next 7 days. Here's just a small sample of what you'll find:

**STOCK #1** has developed a new anti-cancer drug that was just awarded a patent by the U.S. Government. It has \$20 billion in sales potential! This stock is on the launching pad and ready to skyrocket fast!

**STOCK #2** quietly supplies a high-tech necessity to 24 of the world's top 40 companies, including Sun Microsystems and Motorola. Its cutting-edge technology enables transmission of data and voice through lines at higher performance and lower cost. Earnings are projected to rise 227% this year, and the stock price could triple that growth soon.

**STOCK #3** just signed United Parcel Service (UPS) to a huge multi-year contract for use of their real-time software. New orders, customers and profits are flooding in so fast that this stock should soon quadruple in price.

And the other seven stocks I discovered are just as exciting, and just as certain to at least triple your money fast!

### **My proven formula means incredible profits for you.**

It might surprise you to see that we make such impressive profits while many others do just the opposite. But it's no surprise to us.

I've been making these kind of profits for me and readers of **NASDAQ Advisor** for over 12 years. In good markets and in bad, my recommendations almost always make fast, extraordinary profits.

My secret is that I follow my proven formula for success no matter what the economy is doing. To make explosive profits time after time, I stubbornly refuse to even look at a company unless it meets all four of these criteria:

- \* **Small Size** -- The companies I pick are not bogged down by red-tape. They can act fast to seize once-in-a-lifetime opportunities. And they have managed to stay under the radar of the big brokerages, mutual funds and institutions so their stock prices are still very low.
- \* **Newer** -- These companies are not set in old, unproductive ways. They utilize the latest technologies and systems for maximum quality, efficiency and profit.
- \* **Proven** -- I only select companies that have shown positive results. They have a proven track record, solid balance

sheet, and are led by experienced and respected managers.

- \* **Huge Potential** -- These companies are uniquely poised for explosive profits in today's fastest growing sectors.

And the only place to find these gems is on the NASDAQ. Only the NASDAQ allows smaller, newer companies to go public and offer stock.

### **We are the NASDAQ profit experts!**

Every month my staff and I painstakingly sift through all 5,000 NASDAQ stocks to isolate the tiny handful of little-known gems that meet our criteria for future big winners.

Then I make sure I know everything about those companies, inside and out. For every potential stock, my staff and I spend hundreds of hours ...

- ✓ Investigating insider activity
- ✓ Talking to customers
- ✓ Studying the industry
- ✓ Visiting the facilities
- ✓ Evaluating track records
- ✓ Understanding the products and the market
- ✓ Interviewing management
- ✓ Digging beneath financials
- ✓ Identifying sources for capital expansion

Finally I reveal the eight or ten stocks that remain to my readers in **NASDAQ Advisor** newsletter each month.

Sure it's hard work. Sure it's time-consuming. And you better believe nobody else does all this for you. But the profits that my readers and I make month-in and month-out speak for themselves.

- ✓ **1,534% PROFIT** on Lorus Therapeutics
- ✓ **392% PROFIT** on Network Appliance, Inc.
- ✓ **488% PROFIT** on Expedia, Inc.
- ✓ **325% PROFIT** on Chell Group Corp.
- ✓ **303% PROFIT** on Hologic, Inc.

- ✓ 734% PROFIT on Aspect Communications

### **Squeeze every dime of profit out of the NASDAQ!**

Every issue of *NASDAQ Advisor* reveals "blue-chip stocks of tomorrow". I tell you what to buy ... when to buy ... and when to sell for the biggest, fastest profits.

I get you into little-known stocks while they're dirt-cheap before other investors (and the big mutual funds) have any clue about them.

Then when everyone else discovers them and is scrambling to own them, YOU are the one they're paying top-dollar to!

My expertise helps you squeeze every dime out of the NASDAQ while avoiding losers like the plague. We regularly pocket profits that leave the market in the dust, like:

- ✓ 480% PROFIT on Sigma Designs, Inc. in 6 months!
- ✓ 377% PROFIT on Clean Harbors, Inc. in 7 months!
- ✓ 286% PROFIT on Bimer Dental Management Services, Inc. in 7 months!
- ✓ 297% PROFIT on Global Communications, Inc. in 6 months!

**If you want to triple your money  
within the next 12 months, you need to  
get your FREE REPORT now!**

While the country's economic engine continues to sputter and stall, my sources indicate that the bottom is near and the NASDAQ is ready to explode with profits once again. All signs, including record low interest rates and improved corporate profits, now point to a recovery.

But you better be careful. This round of growth won't be nearly as easy as the last time.

You won't be able to throw your money on just about any stock and expect to make money.

You can't blindly trust company management any more.

You won't be able to disregard industry and business fundamentals.

You won't be able to simply follow the crowd.

You could get away with that stuff in the last bull market ... for a while. But most people who jumped haphazardly into the market are paying the piper now.

The proven way to make money in this new market is to ...

**Let *NASDAQ Advisor* guide you to the select,  
few stocks that can make you very rich ... very fast!**

NASDAQ is definitely where the big-profit stocks of tomorrow are. But you can't just buy any NASDAQ stock and expect to get rich.

There are many stocks that meet my 4 basic criteria of being smaller, newer, proven and have huge potential ... but I wouldn't trust most of them with one dime of my money. Or yours.

The only way to make extraordinary profits, consistently like I do is with hard work. Lots of it.

Fortunately, with a risk-free subscription to NASDAQ Advisor, you can discover these explosive stocks of tomorrow, that will at least triple your money!

**Make 3, 5, even 10 times your money or more ...  
no matter what the market is doing!**

I'm sick and tired of so-called "experts" and "gurus" using the economy as an excuse for their own poor performance.

When, as in the late 90s, stocks are advancing like a runaway rocket, any fool can make money ... for a while.

But as many people have recently discovered for the first time in their lives, markets will ALWAYS correct themselves.

Bad, over-priced and over-valued stocks will ALWAYS come crashing back down to earth where they belong. And if you aren't careful who's advice you take, so will your portfolio. So will your retirement. So will your life's savings.

Where are those so-called experts then?

That's why you need to trust me and my ***NASDAQ Advisor***.

I know the stocks. I know the markets. And I have a proven track record of profits no matter what the market is doing. Take these recent winners, for example:

- ✓ 1,178% PROFIT on Research in Motion
- ✓ 563% PROFIT on Microsemi
- ✓ 279% PROFIT on Bell Microproducts
- ✓ 303% PROFIT on Cyberoptics
- ✓ 236% PROFIT on Jos. A. Bank Clothiers, Inc.
- ✓ 249% PROFIT on New Century Financial Corp.
