***New U.S. Patented discovery now available to the public:***

**“WITHOUT ENT-Pro,**

**you will suffer from Sore Throats, Colds, Flus, Sinus Problems, Pain and Fatigue...**

***and many days of feeling terrible.”***

This is like being given a life sentence in a prison from which you cannot ever escape. And let's face it, these problems can turn into your worst nightmare, meaning sinusitis, bronchitis and even the dreaded pneumonia.

**“But WITH ENT-Pro,**

**you will NOT suffer from any or hardly any Sore Throats, Colds, Flus, Sinus Problems, Pain and Fatigue...**

***and your satisfaction is guaranteed.”***

## **Why You Keep Getting a Sore Throat, Cold, Sinus Problems and Other Immunity Illnesses — And How New ENT-Pro Helps Stop Your Problems Once And For All**

**Y**ou are surrounded by thousands of germs — every second of every day — waiting to attack you and make you sick.

*TIME MAGAZINE*

says **“These germs assault every part of your body looking for a way inside, always!”**

If these germs are not stopped,

they will make you sick — not only once — but over and over again for the rest of your life!

These germs enter through your ear, nose and throat (ENT). You breathe 24,000 times a day. Each breath lets germs fungi, bacteria, mold and viruses into your body.

Your immune system is what

keeps you protected from all these germs looking for a weak spot to exploit in your body.

Let me put it this way: Who is your favorite sports team? I'm going to call them "your team". Now if "your team" has a great defense and they never let the other team score, "your team" cannot ever lose a game. This means "your team" will win all their games and become the champions!

Well, "your team" is your immune system, and specifically, your ear, nose and throat (ENT) immune system.

**ENT-Pro strengthens your ENT immune system dramatically!** It produces BLIS molecules that colonize in the oral cavity. This strengthens and protects your ear, nose and throat (ENT) immune system.

This is a specialized, technically advanced and highly targeted natural healer of promicrobiota for your upper respiratory tract, which is your ears, nose, throat (ENT), mouth, teeth and gums.

It is a specific strain of **Streptococcus salivarius** (*S. salivarius*) that has been proven to work in double-blind, placebo-controlled clinical studies. This is found in the mouth of healthy people who do not get these sicknesses!

### **How and Why is it So Advanced:**

When you take **ENT-Pro**, BLIS K12 enters your mouth. It attaches to cells in the oral cavity and colonizes. By colonizing, it crowds out certain undesirable

germs, keeping them from adhering to the host. The final knock-out punch comes from the production of BLIS molecules, Salivaricins A and B.

**PROTECTED**

**If your mouth has enough of these healthy ENT microbiota flora in it, it will fight off these germs and you will NOT get sick.**

**UNPROTECTED**

**However, if your mouth does NOT, it cannot fight off these germs and you WILL get sick... over and over again.**

This lozenge grows good microbiota so it keeps bad microbiota at bay. If you have plenty of good, the bad has no room to take hold and flourish — and — make you sick.

## Iron-Clad Clinical Proof ENT-Pro Works

A recently published study compared the effectiveness of **ENT-Pro's** nutrient BLIS K12 for sore throats. 82 people with a history of throat complaints were given a supplement for ninety days. Results showed this reduced sore throat complaints by 90% as shown in **Figure 1** below.

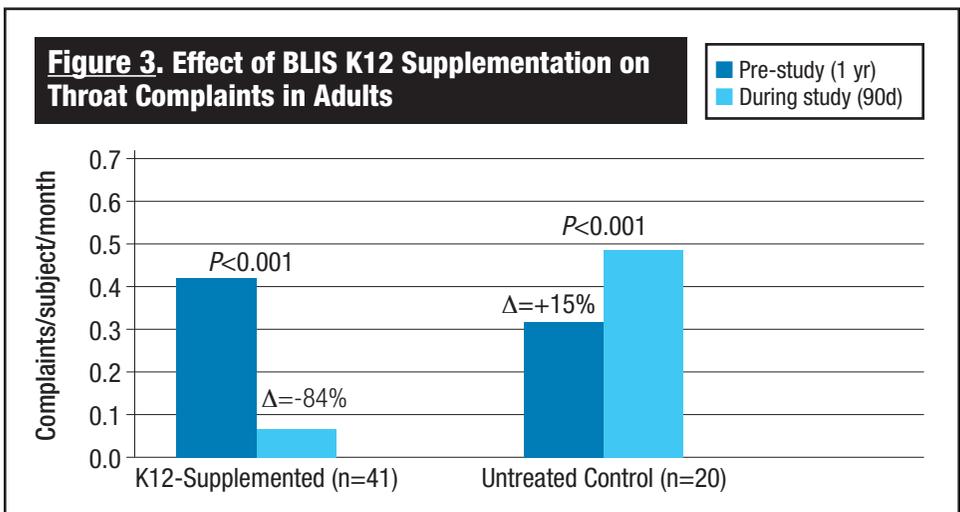

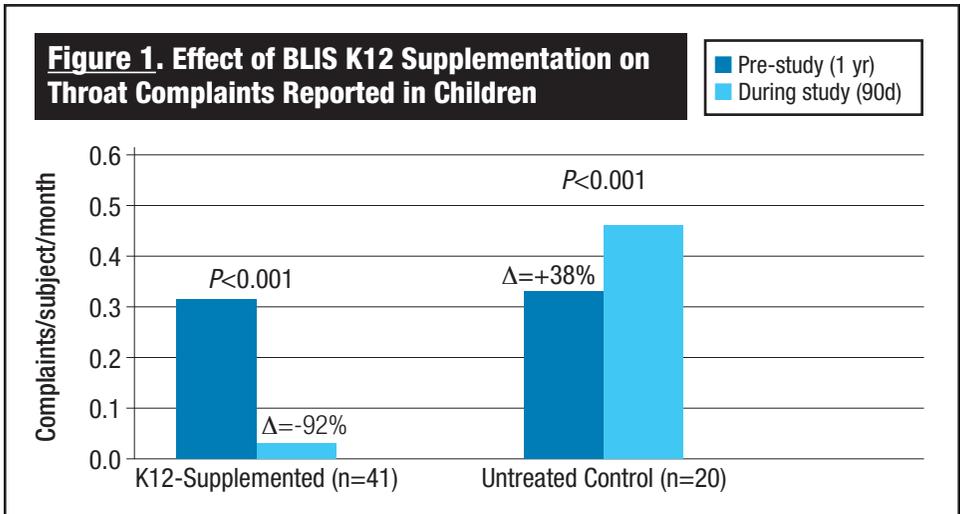

shown in **Figure 3** below.

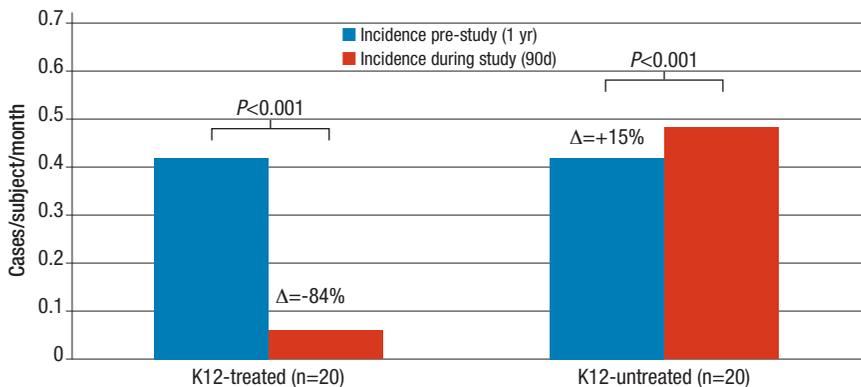

In another study, 40 people with recurrent strep throat were divided into two groups, and followed for ninety days. The study showed a protection rate from BLIS K12 of 80%, as shown in the graph on the next page.

These studies all prove the incredible power of **ENT-Pro** with BLIS K12 for boosting ear, nose and throat health, and protection from sickness.

**It's proven... and you can't have any stronger proof than this!**

## Effect of BLIS K12 Supplementation on incidence rates of strep pathology in adults — open label

## Forget YOGURT and Other PROBIOTICS! This is the Much Better Next Generation

**ENT-Pro** is unique because ALL other probiotics today are specifically grown to resolve GUT issues whereas **ENT-Pro** is a new probiotic strain (from Norway) specifically grown and engineered to alleviate ear, nose and throat issues ONLY.

All other probiotics (no matter what they may claim) only improve intestinal tract health, whereas **ENT-Pro** improves your ear, nose, and throat health which covers sore throats, colds, flus, sinus problems and much more.

It is much different than all other probiotics on the market.

And, as you know, sore throats and other upper respiratory infections can become PNEUMONIA if left untreated, which is deadly for Seniors!!!

## Here's Why Decongestants and Antihistamines are a Bad Choice for You

“There’s a growing concern

that cold and sinus products are not only ineffective, but sometimes dangerous”, says *The Register*.

### DECONGESTANTS

damage the cilia in your nose, the small hairs that work to sweep mucus out of your nose 18 times a second. This causes mucus to build up.

“Doctors say OTC nasal decongestant sprays pose a threat if used regularly more than three days in a row.”

—*Chicago Sun Times*

### ANTIHISTAMINES

dry up your nose so the mucus you need to flow out stops flowing. It hardens and the bacteria, fungi, pollen and viruses in it survive to harm you.

“Allergy remedies can quicken your pulse and lead to a dangerously high heart rate.”

—*Muscle and Fitness Magazine*

And there are known side effects of these drugs, including potential DEATH from:

**Could ENT-Pro end a large number of the 86 million profitable doctor visits and \$122 billion a year spent on medicines for sore throats, sinus problems and colds?**

**CONSPIRACY THEORISTS ask...** why have the medical establishment and drug companies failed to stop your sore throats, colds and nasal problems?

Why can they only cover-up the symptoms? Why do we have to keep going back for doctor visits and buying medicine for the same problems over and over again?

There is big money in only treating the symptoms and keeping things the same as they've always been.

You never get better because doctors have been treating the wrong thing! They are only taught to write prescriptions for drugs. So they *never even think* the bad microbiota in your head, sinus and mouth is the root cause of your problems and must be changed!

You still suffer from these health problems because doctors and drug companies have been treating your problems **THE WRONG WAY!** No wonder you keep having sore throats, cold, flu, sinus problems and more!

But now, finally, **ENT-Pro** lozenges solve and prevent your problems for good at the source!

# URGENT ANTIBIOTIC WARNING!

**WARNING! ... WARNING! ... WARNING! ...**

## **#1. Antibiotics will NOT WORK 91% OF THE TIME**

**FOR YOU** because your illness is viral (not bacterial). You see, antibiotics **CAN-NOT** work on viral illnesses, according to the *National Institutes of Health*.

**#2. Antibiotics will harm you** because they weaken your entire immune system. (They kill all your good healthy flora also.)

**#3. Antibiotics make you more likely to get an untreatable** (potentially deadly) “superbug” or “smart bug”. Then when you really do need one, antibiotics **won’t work for you when it could be a matter of life and death!**

Doctors David Wallinga, M.D. and Gerald Ryan, M.D. on November 2, 2014 said *“The warnings mount: Without drastic action, we face a future where antibiotics often will fail,*

*with much unnecessary suffering and death.”*

Taking an antibiotic is like using a 5-foot Ax to kill a fly on your kitchen counter — you destroy your kitchen counter in the process.

*The Centers for Disease Control and Prevention (CDC)* has estimated that at least 2 million infections and more than 23,000 deaths each year are caused by highly resistant bacteria in the U.S. alone, according to a 2013 report. Many more people die from conditions that are complicated by antibiotic-resistant infections, the agency said.

Various strains of tuberculosis and staph infections have also become more difficult to treat with conventional drugs.

## **White House Orders Plan for Antibiotic Resistance**

“Already the world is facing a situation where once-treatable germs can kill. Repeated exposure to antibiotics can lead germs to become resistant to the drug so that it is no longer effective in treating a particular illness. And the problem is worsening.”

## Studies Prove Antibiotics are Vastly Overprescribed and Harmful... Yet Doctors Still Hand Them Out Like Candy on Halloween!

If you have a sore throat or sinus trouble, you go to a doctor and get a prescription for an antibiotic.

New research by Dr. Jeffrey Linder on 8,200 doctor visits at Brigham and Women's Hospital in Boston shows up to 90% of sore throat cases are viral rather than bacterial, which means they CANNOT be helped by antibiotics at all.

**“The right antibiotic prescribing rate for adults with sore throat is probably around 10%”** Dr. Linder says.

He notes over-prescription of antibiotics continues to be a huge problem.

Antibiotics are very powerful drugs.

**“There is a concern about antibiotic overuse causing super bugs and things we are not going to be able to treat down the line.”** Dr. Linder told *HealthDay*. **“These antibiotics have nearly a 0% percent chance of helping people and a very real chance of hurting people.”**

Here's why: Antibiotics also kill your healthy flora that your body needs. Yes, they kill your healthy flora that your body needs for good health!

Finally, you NOW have the power to keep sore throats and sinus problems away...

with NO dangerous antibiotics or drugs.

For seniors who are not properly protected, this year's cold and flu season could very well mean HOSPITALIZATION or even a POSSIBLE

## Patented ENT-Pro Lozenges Contain 3 All-Natural Ear, Nose and Throat Protectors

This patented, unique, first-ever breakthrough includes the powerful combination of *S. salivarius* K12, the ONLY probiotic developed to colonize in the oral cavity. It contains:

### **YOUR PROTECTOR**

#### **#1. *S. salivarius* K12**

*(U.S. Patent #6,773,912 B1 for S. Pyogenes.)* This

naturally produces two ENT proteins to keep *S. pyogenes*, a bad microbiota, under control and helps keep your ear, nose and throat (ENT) healthy.

This produces BLIS (Bacteriocin-like Inhibitory Substances). This prevents the growth of undesirable

**TIME MAGAZINE** says

**“These germs assault every part of your body looking for a way inside, always!”**

**TIME**

bacteria. Research shows the tiny percent of the population who naturally carry BLIS-producing strains of oral bacteria have significantly fewer or no sore throats.

And to make this even more effective for you, we have also included:

### **YOUR PROTECTOR**

#### **#2. Vitamin D** plays

a role in blood cell formation and it increases the activity of natural killer cells and T cells, supporting the immune system. Research has shown that individuals with higher levels of vitamin D are less likely to have these health problems.

### **YOUR PROTECTOR**

#### **#3. Zinc** is an essential

mineral that plays a role in over 200 different health functions, including strengthening your immune system.

## You Get Even More Benefits From ENT-Pro Lozenges!

### **■ Prevents SINUS HEADACHE**

Now you can end the cause of your sinus headaches, and not

*continued on page 14*

just temporarily mask the symptoms. This makes your sinuses healthy with no germs, so mucus drains out and air is able to circulate.

■ **Prevents FATIGUE**

When you have any of these problems, you are tired and fatigued

because your body has to work much harder to fight them off. And its much harder to sleep, which also makes you more tired. You can end this now. You do not have to be tired anymore!

■ **Prevents SLEEP PROBLEMS**

Sickness and sinus congestion makes it hard to get a good refreshing nights sleep. This keeps your

nasal and sinuses clear and pain-free so you can get the good-quality sleep you need.

■ **Prevents BAD BREATH**

Studies show up to 50% of people suffer from bad breath. Like body odor, bad breath is a

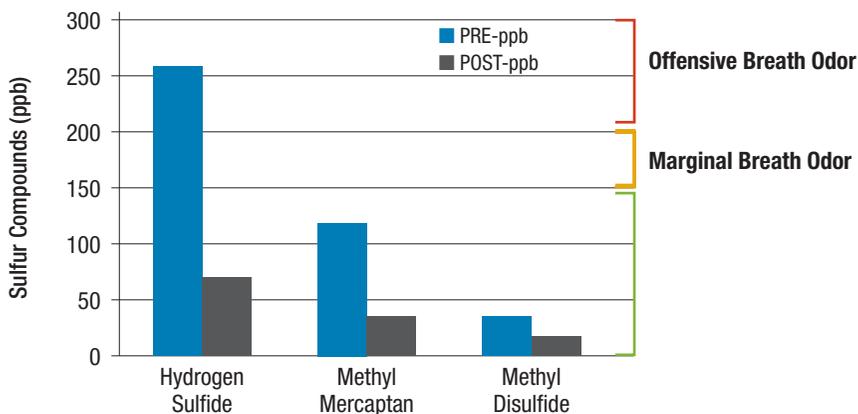

severe personal embarrassment and harms social popularity. A main cause of bad breath is an imbalance of microbiota residing in the oral cavity.

**ENT-Pro** lozenges inhibit these bad flora so it targets the source of bad breath instead of just covering it up temporarily. Mouth rinses, gums and sprays only work for the short term, then bad breath comes back again, but this ends it for good by attacking the root cause of the problem.

Clinical studies also show these results:

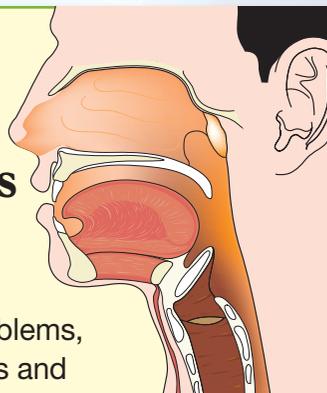

- **better ear health**
- **reduced dental plaque**

**Figure 1. Reduction of Oral Malodor**

**Reduction of total measurable Volatile Sulfur Compounds (VSCs) (ppm) after 2 weeks dosing with *S. salivarius* BLIS K12.**

# Why Yogurt and Other Probiotics Do NOT Work for These Health Problems

These lozenges are NOT anything like the YOGURT WITH PROBIOTICS you see advertised on TV and in your grocery store. **ENT-Pro** is THE ONLY product **from and for** your ear, nose and throat. It represents the latest in high tech probiotic technology and is specifically engineered to SUPPRESS and PREVENT

sore throats, sinus problems, colds, flus and other problems not listed here. Only the key ingredient in **ENT-Pro** is **clinically proven to reduce sore throat issues by 80%** with no antibiotics!

- healthy teeth and gums
- reduced tooth decay

## This Can Be Your Improved Life Now...

When you are no longer put down by sickness, you will have much more time in your life. You have a lot more energy. You are happier. You get more done. You don't miss work. You have more free time to enjoy your family, friends and hobbies.

You have more money to spend (or save) because you are not wasting it on doctor visits and medicines.

And because you have better health, you can also lose weight easier, alleviate chronic health problems, plus have a better memory, concentration, mental clarity and focus.

You will go from a place of fear, to a place of security and peace of mind.
