"Four weeks before I was to have my arteries checked, I started *AtheChel Plus* knowing I had a partial blocked artery in my neck two years prior. When the doctor called to give the report, the test was better than two years before and there was no blocked artery. He said whatever you're doing, keep doing it! Need I say anymore how good your product is?"

**Don't let poor circulation rob you of good health and a longer life! Prevent and eliminate plaque build-up so ...**

**You Don't Have To Suffer With High Blood Pressure, Fatigue, Breathlessness or Heart Problems Any More!**

**Powerful natural plaque remover bores through all 75,000 miles of your blood vessels like an herbal scrub brush to safely eliminate decades of dangerous build-ups.**

Every year, approximately 1.5 million Americans suffer a heart attack, and 300,000 of them die before ever receiving medical attention. Unless you act now, chances are you will fall victim to circulatory problems.

According to Dr. Morton Walker, more than 90 percent of Americans are at risk of serious illness or death due to poor circulation. In fact, six of the ten top killers of Americans (heart disease, cancer, stroke, diabetes, cirrhosis and arteriosclerosis) all have a connection to poor blood circulation.

***Traditional treatment is expensive, and can even cost you your life!***

Americans spend over \$100 billion dollars annually treating cardiovascular disease. Coronary artery bypass surgery is the most frequently prescribed surgical procedure, costing \$10 billion every year.

Yet, studies in the *New England Journal of Medicine* have shown that coronary bypass surgery is over-prescribed and often unnecessary. And no wonder.

The *Alternative Medicine Digest* reports that nearly 20,000 people die every year as a result of bypass surgery or angioplasty. And this dangerous surgery only treats about 6 inches of your entire 75,000 miles of blood

vessels which can be affected.

The good news is **you don't have to suffer with circulatory problems any more. And you don't have to risk the pain or even death of surgery.** But first you need to understand ...

***Cholesterol is not the problem***

Most people assume cardiovascular problems are the result of cholesterol clumping together to form build-ups that block the flow of blood. But that's only part of the story.

Cholesterol is actually a vital substance that your body uses to repair rips, tears or growths in the walls of your blood vessels.

When damage occurs, cholesterol flowing in the blood stops to coat and repair the damaged area. As more layers of cholesterol are added for healing, a bulge of cholesterol is formed. These bulges are what have given cholesterol its bad reputation.

***The real cause of circulation problems is finally found!***

**Nearly 20,000 people die every year trying to clear just 6" of their arteries with surgery.**

**AtheChel Plus** is the safe, natural, easy way to help clear plaque from all 75,000 miles of your circulatory system and end heart and circulation problems.

But researchers now know that these healing bulges are not the real cause of heart and circulatory problems.

You see, your flexible blood vessels are specially made to work around these soft and pliable bulges. Normal arteries simply stretch and increase their diameter around the bulges to keep blood flowing normally.

But shocking new research has identified calcium as a major problem in cardiovascular disease.

Studies show that your body is very inefficient when it comes to utilizing calcium. In fact, only about one fourth of the calcium you take in actually gets absorbed in a form useable by your bones, teeth and muscles. The remaining 75% floats around your body until it is eliminated as waste.

Unfortunately, before it can be eliminated, much of this unusable calcium gets deposited in your tissues and joints where it leads to problems like wrinkles and arthritis. But the most deadly problem is when ...

### ***Calcium hardens your arteries!***

The cholesterol bulges are a favorite dumping ground for unused calcium. Instead of staying soft, the bulge fills with calcium and

becomes a hardened (calcified) rock called plaque.

And that's not all. As the bulge hardens, the entire artery wall becomes inflexible with atherosclerosis. That's when you develop problems like:

- ✓ High blood pressure
- ✓ Fatigue
- ✓ Breathlessness
- ✓ Chest pain

What's worse, without flexibility, your blood vessels can no longer expand. Then, even tiny pieces of clotted blood could block your arteries and cause a deadly heart attack or

debilitating stroke.

***Natural "scrub brush" cleans your arteries and rids your body of excess calcium and toxins***

Now there is a 100% safe, natural, drug-free way to prevent and eliminate the plaque -- and the excess calcium and other chemicals that cause it -- from all 75,000 miles of your

*"Back in April they did an ultra sound and said I was closing up in my artery. They offered no help at all. I heard about oral chelation and decided to try it. I ordered a three month supply and before one month was over, I felt like a new man." H.D., PA*

blood vessels. It's called chelation (kee-lay-shun).

Chelation is a well-known and medically-accepted method for removing specific harmful metals and minerals from your body. Its name comes from the Greek word chele, which means grab, and was first developed in 1893 by French-Swiss chemist, Alfred Werner.

The drawback with original chelation is that it is expensive and time-consuming. It requires numerous doctor visits where an intravenous tube introduces the natural chelating materials directly into the blood stream. For severe cases of heavy-metal poisoning, intravenous chelation is still the preferred method of treatment.

But a more gradual, non-invasive and much less expensive way to eliminate excess calcium and other substances is through oral chelation.

Instead of being injected intravenously, oral chelation is as easy as taking vitamin tablets. The natural chelating materials enter

### **Only *AtheChel Plus* Gives You Safe, Natural Synergistic Artery Cleaning Power With These 7 Natural Ingredients**

**Omega III Fatty Acid** -- Used to treat more than 60 health problems. Lowers blood pressure, cholesterol and triglycerides while preventing blood clots and atherosclerosis.

**MSM** -- This natural organic sulfur keeps cell connections soft and pliable. Helps increase circulation and maximize food nutrition

**Soybean Lecithin** -- A major source of choline which is critical to the fluidity of cellular membranes. Keeps your blood "slippery" to prevent clots and maintain flow.

**Tumeric Rhizome** -- This potent East Indian herb is a potent antioxidant that protects your cells from damage.

**Garlic** -- Proven to normalize blood lipids, cleanse the kidneys and lower blood pressure.

**Ginger Root** -- Used for centuries to treat circulatory conditions. Acts in combination with MSM to lower risk of blood platelet clumping.

**Alginic Acid** -- Contains essential minerals for supporting and strengthening cell walls.

your blood stream through the intestine. There they "grab" unwanted materials from your blood and vessel walls like a magnet and remove them from your body naturally.

### ***AtheChel Plus* is the safe, natural way to prevent and eliminate dangerous build-ups**

*AtheChel Plus* is a powerful oral chelator that combines a unique formulation of proven natural antioxidants, minerals and herbs.

When you take just two easy-to-swallow *AtheChel Plus* tablets twice daily, its natural chelators sweep through your arteries like powerful, brushes to remove toxic metals, minerals and unusable calcium.

**IMPORTANT:** *AtheChel Plus* does not and can not remove calcium from your bones or teeth. *AtheChel Plus* only removes the harmful, unusable, excess calcium.

The synergistic power of *AtheChel Plus'* oral chelators purges your blood vessels of crusty plaque and other debris. It helps dissolve the fats lining arterial walls and it removes the calcium that bonds them. In other words ...

**You Will Feel Better Now --** as *AtheChel Plus* helps eliminate existing plaque buildup and restore flexibility to hardened arteries

**You Will Stay Healthier Longer --** because *AtheChel Plus* helps prevent new circulatory problems from developing.

In addition, *AtheChel Plus* keeps all the fats, calcium and toxins in solution until they pass through your body as waste. They simply can not be redeposited.

With regular use, as *AtheChel Plus* continues the chelation process it also helps ...

- ✓ **Eliminate Pain** -- as blood flows through your pliable arteries again
- ✓ **Normalize Blood Pressure** -- because blood flows more freely
- ✓ **Lower Your Risk of Heart Attack** -- by removing dangerous calcium deposits

- ✓ **Lower Cholesterol and Triglycerides** -- so you can live a longer, healthier life
