## Anti-Aging Secret Finally Discovered!

# *Defeat Health Problems Now and Live 26% Longer... Without Drugs or Surgery!*

By James Welburn, Science Editor

### **Cause of Aging and Disease Finally Discovered**

After 20 years of medical research, scientists have finally discovered the reason people age and become more susceptible to problems with their health.

The result of aging, it turns out, is not so much a total collapse of main bodily functions as it is the slow, almost unnoticeable destruction of your individual cells over time.

Leading the fight against age-associated health problems is Dr. Richard Lippman. He and his team have spent over 20 years looking for the secret to living longer,

healthier lives. What they discovered will astound you!

#### **You Are Slowly Dying... One Cell at a Time**

From the time you reach the age of 25, the very cells that have maintained your sharp mind and ability to fight illness start to disappear. Your body actually begins to die because of cell loss.

It's not noticeable at first because you lose less than 1% (about .7%) of your cells per year. But by age 35—just 10 years after your cells start dying—you've lost a full 7%.

By age 45, you've lost 14%. And by age 65, you're missing a whopping 28% of the cells your body needs to keep you vibrant and healthy.

Think of what this means:

Your skin cells—28% GONE

Your heart cells—28% GONE

Your vision cells—28% GONE

Your digestion cells—28% GONE

Your muscle cells—28% GONE

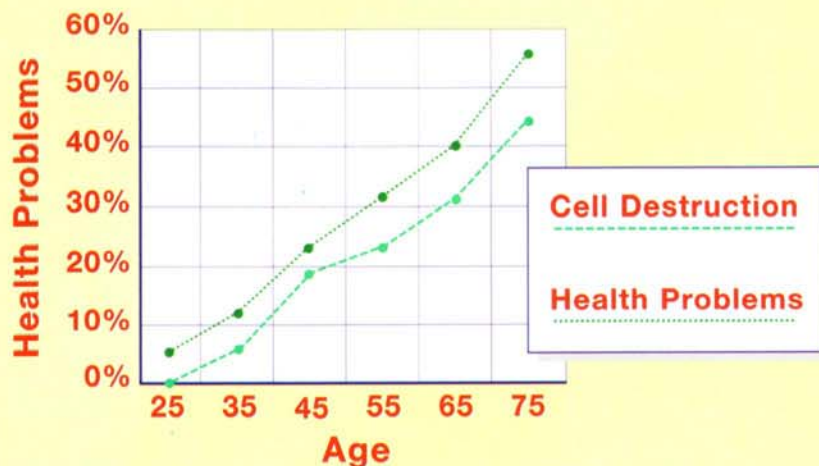

Your brain cells—28% GONE

Every part of your body is affected by cell loss.

It is no wonder that we look and feel worse as we age. Almost 1/3 of

## YOUR HEALTH PROBLEMS INCREASE AS MORE CELLS DIE

the cells you need for healthy, youthful living have been destroyed.

### You Really Do Start "Losing Your Mind"

Nowhere is the evidence for cell loss as the cause of aging and health problems more obvious than in the human brain.

Science has proven that when you're in your prime, at around age 25, the average human brain weighs 1,500 grams.

That's 1,500 grams of cell power that operate every function and system in your body. The way you think, reason, remember things and stay emotionally fit is dependent on those 1,500 grams of brain cells.

But by age 70, the average human brain weighs only 1,000 grams—that's 31% less!

And the effects of this loss of brain cells are obvious in problems like depression, slowed thinking and loss of memory.

### Fewer Brain Cells Equals More Problems

Plus, since the brain controls every part of the body, if your brain is not functioning at 100%, then

neither will the rest of your body. So loss of brain cells is directly responsible for a reduction in the functions of the heart, lungs, kidneys, eyes, joints, digestion and sex drive.

This manifests itself in all the various ailments we have been told are the "normal" result of aging, like age spots, wrinkling, heart problems, kidney difficulties, high blood pressure and more.

The chart above clearly shows the relationship between the incidence of health problems and the degree of cell loss. Simply put, the older we get, the more cells die; the more cells die, the more we are afflicted with health problems.

### Solving the Greatest Murder Mystery of All Time

We have referred to this loss of cells everyone experiences as cell "death." However, recent discoveries reveal that it's more appropriate to say our cells are being murdered.

You see, your cells don't have to die. In fact, if left alone, they would thrive indefinitely. But every cell in your body is constantly being stalked by a deadly killer.

For centuries, people have searched for the cause of aging and related ailments...this cell killer. Finally, science has identified the guilty party.

### Cell Killer Found

Your body is an amazing combination of a machine and chemical factory. Through a multitude of complex systems, your body converts all the oxygen, food and liquids you ingest into the very energy of life itself.

Unfortunately, as with any production process, by-products are created during this conversion of energy. Scientists have finally discovered that one such by-product is a voracious cell killer called FRO (free radical oxidant).

From the day you are born, FROs are created every time your body converts food and oxygen into energy. And these FROs have only one mission: to attach themselves to cells and destroy them.

### Cell Protection Ends at Age 25

For the first 25 or so years of your life, these deadly cell killers are prevented from doing their job. Your cells are protected by a powerful enzyme that stops the FROs right in their tracks.

This limited protection explains why young people do not suffer senility and most of the other diseases of aging.

But after age 25, the production of this protective enzyme shuts down, giving FROs free access to your cells.

### The Secret Cell Protector That Atomic Blasts Couldn't Destroy

Thanks to intense research by Dr. Lippman and his colleagues, you can make up for the loss of this protective enzyme and once again stop your cells from being killed.

## ***“ACF 223 Adds Years to Your Life.”***

Dr. Lippman knew that safely protecting cells from the deadly attacks of FROs would require a natural substance of incredible strength. So he and his team began researching the hardest plant species known to humankind.

His research took him to a former atomic testing site in the Nevada desert to examine plants and animals that survived nuclear blasts and killer radiation.

The seed from one native desert plant was found to have survived and grown. Furthermore, animals known to nibble on this plant also survived the otherwise killer blasts.

The secret ingredient within this simple plant was discovered to be a substance called nordihydroguaiaretic acid (NDGA). Clinical studies show that NDGA extends the life spans of animals and works against premature skin wrinkling, and the same may be true for humans.

### **Doctors and Clinical Studies Prove That ACF 223 Adds Years to Your Life!**

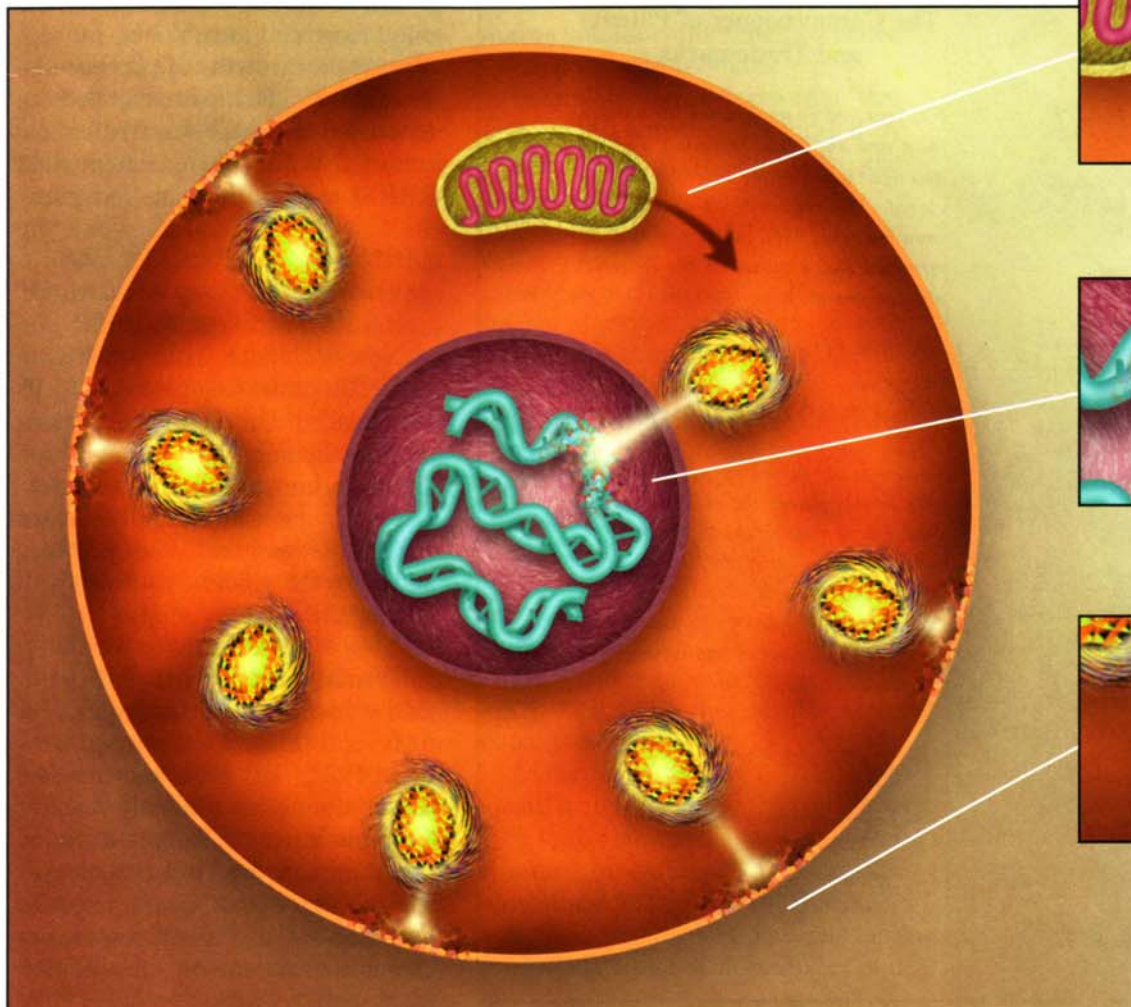

Dr. Lippman took all of these amazing discoveries and began to formulate a safe, nutritional compound that would finally beat aging and its related problems.

After developing and testing over 200 compounds, Dr. Lippman's 223rd formula was the true breakthrough. In rigidly controlled laboratory tests, it was proved to increase life span from 19% to 26%.

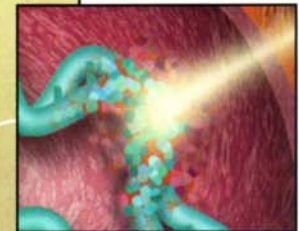

NDGA became the cornerstone of ACF 223. And many subsequent scientific studies have suggested its life-enhancing properties.

Dr. Robert Bolla and Dr. Nathan Brot (1975) at the Roche Institute of Molecular Biology reported in the medical journal *Archives of Biochemistry and Biophysics* that the FRO killers like NDGA “increased life span.”

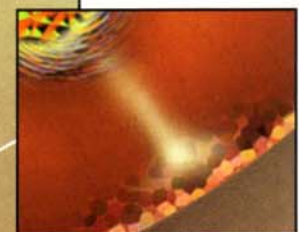

## **The Destructive Actions of FROs**

The mitochondria of cells produce these unstable FROs.

DNA is also damaged by FROs.

FROs damage the cell structure.

## Bubbling With Energy

*"I used to feel tired regularly, but since I've been taking ACF 223, I'm bubbling with energy. In fact, I have more zip now than I had five years ago. Also, my emotional well-being has definitely improved. Thanks."*—G. Schneider, FL

*"I'm 66, but I feel like I'm 50 again since I began taking ACF 223. I used to always be behind with my work on my farm, but now I'm loaded with stamina and ambition. I'm ahead on everything and can't wait to start the next project. I just feel great!"*—G.R. Howard, WA

Dr. Kenneth Munkres and Dr. Raj Rana (1978) at the University of Wisconsin's Molecular Biology and Genetics Laboratory concluded that certain cell builders and FRO killers increased life span by 14%.

Dr. D. Gershon (1988) at the Biology Laboratories of the Israel

Institute of Technology summed up their findings best by saying that cell builders "cause considerable prolongation of the average life span."

And so was born the brand-new anti-aging formula called ACF 223.

### Now You Can Stop Cell Loss... Plus, Build New Cells and Reverse the Ravages of Aging...

Dr. Lippman and his team realized that delaying further damage wasn't enough. It would stop increased ravages of aging, but would not, by itself, do anything to reverse the damage that was already done.

They worked tirelessly to not only stop cell death...but to also reinstitute growth of new cells. That is why Dr. Lippman added the renowned cell builders ribonucleic acid (RNA), L-phenylalanine and RRR- $\alpha$ -tocopherol to his formula.

### It's Like Getting to Live the Best Years of Your Life All Over Again!

Now with ACF 223, your living cells are protected, plus lost cells are replaced. This is the true process of rejuvenation that you will see and feel almost immediately.

Now you can actually retard aging, look and feel years younger, and enjoy the vigor of your youth all over again.

### Worldwide Recognition for This Amazing Discovery

ACF 223 has been shown to be so beneficial that the United States Commissioner of Patents awarded Dr. Lippman the first patent ever for an anti-aging compound. To be awarded a U.S. patent, your concept must not only be new, it must work!

## More Youthful Skin...Tremendous Improvement

*"I'm 82, and I charge my system daily with ACF 223. Since I've been using it, my skin, hair and nails have responded more youthfully. Also, I've found that I can exercise three times a week with ease. Thanks for your great products."*—D. Johnson, CA

*"You ought to sell ACF 223 at cosmetic counters. It has tremendously improved my skin tone, made my skin smoother and more youthful. Thanks for a superior product!"*—M. Swacker, IL

As you will see, the results obtained with ACF 223 are nothing less than miraculous! That is why, after the results of ACF 223 tests were published in prominent medical journals, Dr. Lippman was nominated for a Nobel prize.

### You Can Stop Premature Aging on All Fronts

During the course of his extensive research, Dr. Lippman discovered that deadly, cell-killing FROs were tough opponents because they come from virtually everywhere. Initially thought to be only the by-product of digestion, Dr. Lippman discovered many other causes of FROs in the body.

Dr. Lippman also found that there are slightly different types of FROs that tend to affect different parts of the body. So Dr. Lippman packed his ACF 223 with a whole arsenal of cell builders that fight disease and add years to your life.

### Eliminate Life-Robbing Metals and Poisons From Your Body

In today's polluted world, the very act of breathing unleashes a variety of cell killers within your system. Everything from vehicle exhaust to tiny metal particles and chemicals inherent in industrial smoke unleashes FROs in your body.

You simply can't avoid these poisons without walking around wearing a gas mask all day. Although you can't avoid these

poisons, Dr. Lippman found two amino acids that eliminate these cell killers from your body.

He included these, cysteine and methionine, in ACF 223 to detoxify your body by bonding with these cell killers and removing them as bodily waste.

### Stop Skin Damage, Look 10 Years Younger

The most obvious signs of age appear right on your skin. Nothing makes you look older than so-called "age spots" and wrinkles.

Scientists have discovered that these skin blemishes are caused by FROs killing vital skin cells and collagen cells.

Rigorous testing proves that the cell protectors in ACF 223 work especially well on skin cells to deter further damage and aging. But to restore the skin of your youth and eliminate wrinkles and age spots, Dr. Lippman turned to the amazing discoveries of Dr. Ana Aslan in 1965 at the Institute of Geriatrics in Bucharest.

Dr. Aslan found that a natural extract taken from the skin of citrus fruits, called "citrate," revitalizes skin and collagen cells.

Dr. Lippman added citrate to ACF 223, and the results were equally amazing.

Many users of ACF 223 have specifically commented on how they "see a new radiance" and "feel a return of softness" to their skin almost immediately. With ACF 223, years will disappear from your face and hands along with wrinkles and age spots.

## Arthritis and Joint Discomfort Disappear

*"Since I began using ACF 223, I have not experienced any arthritic pain or depression. My memory has become remarkable for a 79-year-old, and my skin has become radiant. Thank you."*—G.C. Hasal, CA

*"I could hardly get up or down because of severe joint pain before I found your ACF 223. In only two weeks, it eased the pain and I don't walk with a limp anymore. Depression is practically gone now. I definitely recommend ACF 223 to anyone who has joint pain. Thank you so much!"*—T. Brown, WA

### New Fight Inhibits Abnormal Growth, Adds Years to Your Life

While FROs attack and kill most normal cells in our bodies, Dr. Lippman discovered research that proves they actually contribute to abnormal cell growths.

Dr. Denham Harman (1968) of the University of Nebraska College of Medicine reported that *animals given cell builders and FRO killers like those in ACF 223 lived 26% longer*. Most importantly, this report showed that those animals rich in ACF 223 nutrients had

almost no abnormal growths when they died, but those NOT receiving ACF 223 nutrients had many.

The cell builders and FRO blockers in ACF 223 can definitely reduce your risk of abnormal cell growths.

Dr. Harman (1981) was quoted in the journal *Proceedings of the National Academy of Sciences* as follows: "A number of studies have shown that [cell builders and FRO blockers] inhibit growth development in some model systems. [FROs] are definitely associated with the development of some abnormalities."

Dr. Richard Cutler, director of the National Institutes of Aging, has conducted countless experiments and clinical trials with ACF 223 nutrients and concludes: "our life span is directly proportional to the amount of [ACF 223] nutrients we have in our bodies."

### Alleviate the Discomfort of Arthritis

Joint ailments, such as arthritis, have advanced to near epidemic proportions in people over age 50. New research indicates that the cell builders in ACF 223 ease the discomfort of these conditions.

Joint problems are particularly disheartening during times of aggravation. Dr. Heliovaara and other researchers at the National Public Health Institute in Finland conducted a clinical trial with almost 1,500 people with joint ailments. Their study proved that the cell builders in ACF 223 have a long-lasting beneficial effect.

Dear Friend,

As a medical school professor, I have never seen a non-prescriptive medicine that has as much importance as ACF 223! When I saw the results of the clinical trials, I was so impressed that I immediately urged our government to approve it as quickly as possible. They did, and it has a very large and loyal following here in Sweden.

Most medicines treat the symptoms and not the "cause" of the illness — especially those diseases that afflict us later in life. ACF 223 not only subdues the cause, but actually helps prevent many diseases from occurring — that is, if ACF 223 is taken regularly!

It is the only medicine that I recommend to everyone, over the age of 25, if they want to live longer, healthier lives! I insist that my family and friends take it. You should, too.

Best regards,

Ambjörn Ågren, M.D., Ph.D.

P.S. By the way, I don't own stock in the company nor am I getting paid to write this letter. My purpose is to make as many people healthy as possible. ACF 223 is certainly the greatest tool I have found for achieving that purpose!

## No More Aches and Pains

*"I've lost weight since I started taking ACF 223. Also, I sleep better because my aches and pains have really diminished. Please thank Dr. Lippman for me."*—D. Lamanna, LA

*"Taking ACF 223 really makes me feel so much younger. I believe I look younger, too. Thank you!"*—Dr. D. Spinks, TX

Regular use of the cell builders in ACF 223 has been shown to reduce discomfort—and even deter it. This means those affected with joint ailments could lead relatively normal lives with the regular use of ACF 223.

### Maintain Peak Brain Function at Any Age

We have already seen how loss of brain cells affects every part of your body. Further research by Dr. Hans Kugler shows that FROs inflict another type of damage, in addition to killing your brain cells.

One of the key chemicals in your brain is norepinephrine. It is responsible for maintaining primary brain functions. *Any reduction in norepinephrine levels results in accelerated aging and depression. Dr. Kugler found that FROs also destroy norepinephrine.*

Thankfully, the cell builders in ACF 223 act to counteract the destruction of norepinephrine and keep your brain functioning at peak capacity. This was confirmed in tests conducted by Drs. C. Cohen and R.E. Heikkila (1984), which suggested that FROs, left unregulated, destroy norepinephrine, while the introduction of the cell builders in ACF 223 slows the FROs from doing damage.

### Feel Energized and Alert

Cell loss affects every part of your body, even your blood. Just as regular cells start to disappear after you reach age 25, your blood stops being an efficient transporter of life-sustaining oxygen.

Due to cell loss, red blood cells actually lose their ability to absorb oxygen. Studies by Drs. G.S. Hayes and I.N. Stinson (1976) show that the average person's ability to absorb oxygen decreases every decade.

When your blood cells don't absorb enough oxygen, your organs become "oxygen starved." This results in the tired, sluggish feelings you experience more severely as you age. It also contributes to various health problems. Visible signs of your cells being under-oxygenated include graying hair, hair loss and skin wrinkling.

During his research, Dr. Lippman discovered that when subjects were given ACF 223, their blood

oxygenation increased dramatically. Their appearance, health, vigor, attitude and sex life all improved significantly! This is the kind of transformation available to you when you begin using ACF 223.

### Supercharge Your Sex Life

The increased oxygenation of blood brought on by ACF 223 is particularly beneficial in renewing a satisfying and active sex life.

The very ability to have an erection depends on healthy, oxygenated blood engorging the penis. Poor blood quality results in poor erections and poor sex.

Tests conducted by the Faculty of Medicine, Kyushu University (Japan), found that the cell builders

## Sex Life Heightened

*"I am very satisfied with the remarkable improvement in my virility since I've been taking ACF 223. It is a very impressive product. Thank you."*—R. Westmoreland, AR

*"I wish I had found ACF 223 much sooner. My sex life is much improved, my memory is better and my general health is terrific. I've recommended it to several friends and they love it, too. Thank you for a great product!"*—M. Chau, CA

—Dr. Michael Felhendler, Soderkopings Hospital, Stockholm, Sweden.

found in ACF 223 enhanced the sex drive in experimental animals.

In all cases where the same tests were conducted on humans, the results were virtually identical.

## Alleviate Heart Problems— America's #1 Killer

The patented ingredients in ACF 223 also work against problems associated with your heart in several ways. First, the cell protectors fight FROs and keep them from killing healthy heart cells. Second, cell builders restore and rejuvenate heart tissue plus keep your blood healthy and oxygen-rich, which reduces the workload on your heart.

In a totally new discovery, Dr. J. Salonen (1992) reported in the *Journal of the American Heart Association* that "free" iron in the body correlates to a greater risk of heart problems. This "free" iron actually causes an increase of FROs in the heart muscle.

The cell builders in ACF 223 counteract heart damage caused by "free iron." In addition to stopping FROs, the cell builders in ACF 223 also convert dangerous "free" iron in your body to the safe and needed "chelated" form of iron. So your heart is protected by ACF 223.

## The Medical Breakthrough of the Century Will Change Your Life... No Matter What Your Age!

No other single compound or preparation has been so rigorously tested, with so many benefits reported. It was even granted a United States patent!

## Strengthen Everything From Your Memory to Vision

*"ACF 223 is amazing. I'm getting stronger—even my eyes are getting stronger. My last exam proved it. For the first time in 10 years, I'm using weaker lenses. Thank you!"—B. Parker, TX*

*"Thanks to ACF 223, my memory is greatly improved, I have more energy, and my skin looks and feels so nice. You have a good product."—J. Oberst, WA*

To live a longer life, free of many of the health problems traditionally thought typical of older age, ACF 223 is all you need.

ACF 223 is suggested in clinical studies and by thousands of users all over the world to:

- Increase life span 19–26%
- Detoxify your body & eliminate disease-causing chemicals
- Add a new radiance & softness to skin
- Diminish wrinkles & age spots
- Keep your mind sharp & alert
- Alleviate discomfort related to joint problems
- Increase your energy & stamina
- Deter heart disease
- Improve your sex life
- And much more!

And you're never too old to start benefiting from ACF 223. Doctors we spoke with said that even people in their seventies and eighties will benefit from the cell builders and FRO destroyers in ACF 223.

Most older people will notice a dramatic difference in their health within just one or two months of regular use of ACF 223.
