Discover "Natural Morphine" That **SAFELY** Melts Away Pain In 15 Minutes...

What You Are Reading is a **SAFE Pain Relief Breakthrough** that is **NOW Bringing Natural Relief to Millions...**

Warning... What you are about to Read on **THIS PAGE**, Big Pharma **DOES NOT** Want you to Read.

This Page Reveals a Safe, Naturally Occurring Pain Killer That Has Outperformed Morphine In Closed Clinical Trials (More Information Below).

All without a **SINGLE** sign of side effects or risk of addiction.

The information contained here, as it continues to spread, will **COST THEM BILLIONS** as pain ridden patients flock to this effective, safe and natural alternative.

They have fought this **VERY RELEASE** for the past 8 years, using the muscle of the FDA, FTC and even the court system.

But **ALL** has changed and now **YOU** are in the driver's seat. Due to the 2018 Farm Bill, they have lost their fight and this information **FREE** to passed to the public.

If you are **ON THIS PAGE** now, please read to the fullest extent and take notes. If they fight back (which they will) it could be taken down at any time.

Mother Nature Has A Potent Pain Killing Secret...

This is what top medical scientists are calling this rare and heavily studied alkaloid (pain killer). In many ways it is like mother nature herself created a **"safe" form of morphine** that is truly a **NON-Narcotic**.

When consumed, this amazing substance is able to attach to your inflamed pain receptors, giving you powerful relief after **JUST** minutes.

In fact, during clinical trials, its effects have been compared to morphine with **ONE HUGE DIFFERENCE...**

This natural substance **DOES NOT** interact with your opioid receptors... It bypasses them all together.

This means you do not risk inebriation, brain fog or terrible addiction.

After eight years of clinical testing, patient after patient has gotten powerful, clean and safe relief without an ounce of addiction risk.

And now that the legal battle is won (for the moment) and the dust has settled, we are ready to share this **INCREDIBLE** discovery with the world.

But as you will read, it has actually been under our noses since the 17th century.

Hi,

This entire page is **VERY** important to me.

As you know we really and truly are in a **WAR ON DRUGS**

And right now, the drugs are winning.

And no, I don't mean street drugs... I mean powerful opiates that have a grip on over **100 million Americans**.

The ones that are leading to **addiction, overdoses and worse**.

They are leaving a wake of ruined lives, shattered dreams and death while Big Pharma **MAKES BILLIONS IN PROFITS**.

And this terrible cycle all begins when someone simply wants to feel better, and *live without agony*.

I believe every American deserves to live without pain.

And that is when I saw the initial research on this **incredible alkaloid**, my jaw literally dropped.

Right before me was a clinically proven active ingredient that had the relief qualities of dangerous drugs **without a single known side effect**.

Plus, it had been ruinously studied by one of the leading medical research groups in the world... **The Scripps Research Institute**.

It is my belief that this simple innovation is going to change the life of millions.

In the world of natural health, something truly unique is few and far between.

However, what you are reading today is world changing information, that has never been released to the public.

This liquid alkaloid format, is one that has totally shocked the medical community as more and more test results pour in.

Best of all, the extraction process is now patented and only conducted in the United States.

In their finished state, these liquid alkaloids tested **17 times stronger than Morphine**, without showing **any patient side effects**.

In fact, studies show gives you **full body relief in 15 minutes or less**.

I fully believe your life of pain is coming to an end!

In my opinion, this is the **END ALL** option when it comes to natural and safe pain relief, it cannot be beaten!

Sincerely,

Clint Winters

Envision YOUR New Life Without Pain...

Also imagine achieving it safely, without risking terrible complications or addiction

Do you currently live in pain prison? How long have you been there? Have you given up looking for solutions and resided to the fact that chronic pain is inevitable?

If so, you are not alone. Many feel they have to choose between a life of chemicals and addiction or chronic pain.

Either option leads to a life of on going misery!

YOU DO NOT HAVE TO MAKE THIS CHOICE

You now have a **THIRD** option, the best option.

What if you could live without pain, no matter your current age?

What if there was a non addictive liquid that eased your pain centers **EXACTLY** like an opiate, without **ANY** side effects?

In fact, what if you could have "opiate like" relief without spending your day inebriated or addicted?

THAT Day and THAT LIFE are now here!! You are reading about the single greatest **pain killing invention in the world**.

Scripps Research Institute Made a Natural Pain Relief Discovery

a Natural Pain Relief Discovery...

If you are not familiar with Scripps Research Institute, they are a world renowned, forward thinking, medical research institution.

They are ranked as **THE MOST INFLUENTIAL** medical organization in the world due to its dedication to forward human progress and innovation.

They have single handedly solved some of the world's **GREATEST HEALTH CONCERNS**, furthering human health.

They **HAVE** and **CONTINUE** to do a lot of sophisticated testing with rare and advanced natural ingredients.

Best of all, they are totally self-funded, they are **NOT** owned by special interests

They are **NOT** a shadow organization of Big Pharma...

They simply want to find the **BEST** active ingredients, natural or not, to further human health.

Well, in 2004 a team of researchers set out to tackle the issue of the looming opiate crisis.

They knew synthetic painkillers were destroying the United States and other options had to be found.

The Wanted to Identify Viable Alternatives to Synthetic Painkillers.

This process consisted of Laborious testing of synthetic and natural ingredients a like.

They were not **JUST** looking for relief indicators, they were looking for the absence of side effects and addiction risk.

After years of testing, they **FINALLY** found what they were looking for and they found it inside the bark of the rare, but potent Tabernaemontana Divaricate tree.

They found Conolidine a Naturally Occurring Alkaloid that had the Pain Killing Properties of Morphine without ANY of the Side Effects.

This "**pain killing**" compound is a natural indole alkaloid that binds directly to human pain receptors, easing pain without side effects.

Conolidine is specifically a **C5-nor stemmadenines**, or more commonly called an "**opiate analgesics**"

An analgesic is a compound that relieves pain **WITHOUT** making you drowsy or lose mental control like popular opiates.

Best of all, it was **NOT** a narcotic, so there was **ZERO** risk of addiction.

As soon as this discovery was minted, medical researchers moved directly to copious medical trials, proving the efficacy of this promising and powerful ingredient.

For the first time in human history, a safe active ingredient was as potent as dangerous opiates.

It is able to accomplish this by quickly and easily passing the blood brain barrier.

In studies, conolidine is able to be fully absorb in your blood supply and ease the inflamed pain receptors in your brain **within 15 minutes**.

Overall, it has been proven as a powerful pain killer **WITHOUT** showing the signs of chemical dependence.

It is **NOT** synthetic and your body does not rely on it after it is discontinued like opiate pain killers.

- In terms of pure pain relief, it has been tested as potent as 17 times stronger than Morphine.
- The super alkaloid enters your body and provides substantial pain relief within 15 minutes.
- Many users also experience a general feeling of euphoria or well-being.

Conolidine is the strongest natural pain killer ever discovered and it carries **ZERO** risk of side effects.

Conolidine is As Strong As an Opiate with the Safety of an Aspirin

Yes, you read that correctly, you can now have "**Opiate Like**" Relief, without risking your life.

This Alkaloid is **17 Times Stronger Than Morphine**
(Clinically Proven).

When it enters your body it goes to work **IMMEDIATELY** stimulating your pain receptors - releasing pain relief all over your body.

It is like your **OWN** body naturally induces relief.

So why is it **NOT** a risk? It comes down to biology.

When you give your body **ARTIFICIAL** opiates (like pain meds) it stops its **OWN** production. Once the artificial opiates are gone, your body begins to *crave*! This is what leads to addiction.

However, this natural alkaloid does **NOT** make your body dependent.

It enters your bloodstream, activates your natural pain centers and gives you quick, lasting relief. However, you don't feel "high" and you have **ZERO** addiction.

This is finally a **SAFE** pain solution that **ACTUALLY** works

You No Longer Have To Risk Your Life For Fast Relief

Conolidine Soothes Your Pain Receptors Giving You Safe and Fast Acting Relief...

This is truly a **NO FRILLS** solution. It is very simple, conolidine is an incredibly powerful pain killing alkaloid that attaches to your pain receptors in **15 minutes or less**.

It keeps pain away for hours without causing **ANY** side effects or addiction.

Here is How It Works

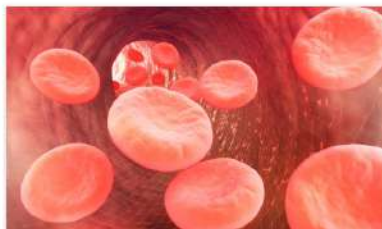

- 1 Conolidine Absorbs Into Your Blood Stream Sublingually
- 2 Within 15 Minutes it Passes The Blood Brain Barrier
- 3 It Attaches to your Pain Receptors, Lowering Pain Signals
- 4 You Experience Hours of Relief

The Answer to Relief is Purely Suspended Sublingual Conolidine

Imagine Prescription Strength Relief in 15 Minutes or Less...

It Only takes Conolidine **15 minutes** to Hit Your Blood Stream, Pass the Blood Brain Barrier and Give Full Body Relief, Soothing Your Pain Receptors.

Are you in pain right now? Look at the clock, imagine having total relief in 15 minutes. This is now a reality that chronic pain patients are experiencing daily.

This super "pain killing" alkaloid is able to soothe your natural pain receptors in 15 minutes or less.

It is incredibly effective and fast acting. In fact, as you will read, it was proven **MORE EFFECTIVE** than morphine.

15 minutes is ALL the time it takes for the alkaloids to fully absorb into your bloodstream and relieve your brains pain receptors.

Once This Happens Wave after Wave of Natural Relief Soothes your Pain Centers and Induces TOTAL Relief.

Yes, It OUT PERFORMED Morphine in a Closed Pain Trial

CLOSED PAIN TRIAL

These are the results you have waited for, right?

Well, here we go...Alkaloid Morphine Vs. Alkaloid Conolidine

As more and more initial research was published regarding Conolidine, The Royal Marsden Hospital in England decided to do a head to head clinical trial.

They wanted to see which alkaloid penetrated the body faster and bound more efficiently to human pain receptors.

The results even shocked the doctors themselves.

When they tested the two alkaloids head to head they found that Conolidine bound 17 times faster and more efficiently than morphine.

Not to mention, Conolidine did not induce side effects like Morphine.

Overall, they concluded that Conolidine was a much more efficient pain killer.

Led by Advances in Chemical Synthesis, Team Discovers that a Rare Natural Product Has Potent Pain-Killing Properties

By Eric Sauter

Scientists from the Florida campus of The Scripps Research Institute have for the first time accomplished a laboratory synthesis of a rare natural product isolated from the bark of a plant widely employed in traditional medicine. This advance may provide the scientific foundation to develop an effective alternative to commonly prescribed narcotic pain treatments.

The study, published May 25, 2011, in an advanced online edition of the journal *Nature Chemistry*, defines a chemical means to access meaningful quantities of the rare natural product conolidine. Based on data from mouse models, the study also suggests that synthetic conolidine is a potent analgesic as effective as morphine in alleviating inflammatory and acute pain, with few, if any, side effects.

In recent years, there has been significant interest in developing alternatives to opiate-based pain medications such as morphine. While widely prescribed for pain, morphine has a number of adverse side effects that range from the unpleasant to the lethal, including nausea, chronic constipation, addiction, and breathing depression.

The rare natural product central to the study is derived from the bark of a widely grown tropical flowering plant, *Taxus mucronata diversifolia* (also

"[Our] studies confirmed that while [Conolidine] is not an opiate, it's nearly as potent as morphine."

Ground Breaking International Pain Clinical Trial

This clinical study was conducted in 2015 and was the **SOLE** reason we started developing **PURE Conolidine**

When it comes to unbiased medical research, we turn to large international studies.

Here is the main reason:

Most international medical associations test **NATURAL** and **CHEMICAL** ingredients alike.

Sometimes even head to head!

Did you know that one of the **LARGEST** pain based clinical trials was done on **super alkaloid, Conolidine**

This clinical trial was conducted by the world leading World Health Organization (WHO) and including patient volume of over 8,000 pain patients (8150 to be exact).

Anything over 1,000 people was claimed to be a huge clinical trial!

World Health Organization

The Results are In - 100% Effective for Pain Relief

In a recent 8,150 person survey, 9 out of 10 said the alkaloid was "very effective" for pain, depression, anxiety, insomnia, opioid addiction and alcoholism.

Percentage Who Rated Conolidine 1 "Very Effective" for their Pain Condition

- | | |
|---|--------------------------------|
| ✓ 92% Back pain | ✓ 100% Cancer |
| ✓ 92% Acute Pain | ✓ 97% Multiple Sclerosis |
| ✓ 91% Lupus and other autoimmune diseases | ✓ 94% Irritable Bowel Syndrome |
| ✓ 90% Osteoarthritis | ✓ 93% Migraine |
| ✓ 90% Neuropathy | ✓ 93% Fibromyalgia |
| ✓ 88% Trigeminal Neuralgia | ✓ 92% Rheumatoid Arthritis |
| ✓ 76% Ehlers Danlos syndrome | ✓ 79% RSD or CRPS |

This international clinical trial was able to prove without a doubt that Conolidine is the strongest natural pain killer in history.

The results of this study were clear! We had to find a way to offer PURE Conolidine.

We knew this was the ultimate pain killing solution!

After years of research, trial and error and development – we succeeded.

In our small internal tests this substance was already changing lives around the world!

Imagine What it Could Do for YOUR Pain...

Pharmaceutical Grade Relief, in 15 minutes, without a prescription

Imagine placing a liquid under your tongue and it **INSTANTLY** absorbing and soothing your pain receptors, giving relief.

What you are reading about is a breakthrough in the fight against pain.

It **NATURALLY** gives you the effects of opioids without all of the chemical and artificial side effects.

Medical Science Has Never Seen A Natural Solution As Powerful As Conolidine

But, This is The ONE Story That Changed Our Lives...

CONOLIDINE LITERALLY SAVED MY LIFE

We love **EACH** and **EVERY** story we get from our customers, but this one really moved us!

My name is Kelley, I'm 43 and permanently disabled. I live in Frankfort, KY but I'm from Baltimore/DC.

I suffer from chronic fibromyalgia, degenerative disc disease, spinal stenosis, carpal tunnel syndrome, narcolepsy, depression, anxiety and PTSD.

The symptoms can be very very overwhelming.

"My Life of Pain Was Pure Hell"

Before Conolidine I'd sleep 3 and 7 days in a row, I'd be tied to the couch or bed from lack of energy, chronic pain and depression.

I have been on so many medications it would take hours to put them all on a list, so I'll relay some that I can remember: Viibryd, Prednisone, Fentanyl Patch, Oxycontin, Norco, Percocet, Endocet, Opana, Trazodone, Amitriptyline, Carisoprodol, just to name a few.

For the last 20 years I have been getting Physical Therapy, Chiropractor, Exercise, Injection Therapy and Hydrotherapy.

Still I suffered! I became so ill I could no longer work and was 3 years ago. I was finally granted full Disability.

And now a Confession...

"Because Of Pain I have tried to kill myself five times"

A Single Message Saved My Life

8 months ago I was in a Chronic Pain Support group on Face Book when another member sent me a message telling me a story of the private Conolidine clinical trial and how it was already helping others with chronic pain.

You can only imagine my response that one liquid could bring this lifeless body back from the dead.

It took me a month of conversations, investigating, and a lot of questions and "what ifs".

Right before Christmas I took the plunge, I joined the trial.

Well Christmas came and so did my first batch! I followed the directions and started small.

My Pain Melted Away...

Within 15 minutes my pain just melted away, no high, no blurred vision, no paranoia, no hallucinations, **it was just "gone"!**

I've been sold ever since. I'm doing well because of **Conolidine**. I have not tried suicide, cutting or burning my arm as a pain distraction since life changing leap of faith. Being off 11 medications I have a better quality life, before I would pass out or have black outs from all the medications I was on.

Today, I remember everything from the moment I wake up ... to the moment I fall asleep. I am a daughter today, a sister and aunt I am so many other things today rather than a soulless shell of existence. I do chores around the house, I can go to family functions, where before I was asked to **NOT** come because my medications made me an embarrassment to my family and an embarrassment to myself.

In fact, in a recent appointment with my pain management clinic they were ECSTATIC that I was doing so well.

They said **"keep doing what you are doing"** But I didn't tell them my secret. I only have **ONE** Fear if doctors and states ban Conolidine, I will be back on all the medication, back to the weekly ER visits, multiple doctor visits a week, back to **"my life as Death himself"**.

The thought of not having Conolidine leads me down that dark path of "I'll die, I'll just end it all", and just for today, I do NOT want to die.

Pain Can Ruin Your "Perfect Retirement" - Do Something!

Imagine this, it is early in the morning and you pull up the exclusive golf course that you have waited your whole life to join, the sun is shining, fresh cut grass is all you smell around you.

You step out of your car and you listen to the early morning birds chirping as the sun reveals the dew, freshly on the perfect looking fairways.

You have made it, after all of these years you are newly retired and you finally have the time and the money to relax, play golf and spend time with lifelong friends.

You grab your bag, throw on your cleats and head towards the clubhouse. However, you have fear... **A Big fear.**

You are fearful of what gripping the golf club will feel like, or the pain you may experience in your knees and back.

You aren't scared of pain, you are scared of what pain means to your future. You know most pain becomes chronic.

You are worried that your best years have come and gone...

You know that if you can't swing your club, due to the shooting body pains resonating in your body, your day is finished. A day turns to a week, to a month and then **FOREVER**.

This is chronic pain and it **affects 100 million people**. It doesn't just hurt in the short run, it affects your entire life. You have worked so hard, for so long, you don't want to be a slave to the medical system.

What you deserve is a pain free life that you can enjoy! One that you can get the most out of as you

age, Golf, camping, tennis, cruises, whatever you do CAN be protected.

Yesterday, you did not have a choice. **TODAY YOU DO!** You can choose to use this amazing alkaloid to get constant and safe relief.

You can choose to make your next years, your best years. Thousands of others are using this solution and doing **JUST THAT**.

You have not worked your whole life to just **"settle"**. You have worked to be able to LIVE.

In Summary

Incredible, Natural and SAFE Pain Relief

It is simple, pure Conolidine is the strongest natural pain reliever in the world. It is proven to enter your bloodstream and bind to your pain receptors in 15 minutes or less.

Sublingual Conolidine has been achieved through a patented process called Ethyl Extraction - that concentrates this powerful alkaloid by over 100 times.

This is the first time pure sublingual Conolidine has been offered worldwide.

- ✓ 100% Pure Conolidine
- ✓ Tested 17X Times Stronger than Morphine
- ✓ Works in 15 minutes or Less
- ✓ No Known Side Effects or Addiction

**100% Pure Conolidine Cannot Be Found
Anywhere Else In the World.**

Introducing, Sublingual Conolidine 1 Exclusively from Pharm Origins. 100% Pure, Liquid suspended Conolidine.

✓ Safe, Powerful Relief That Out Performs Opiate Pain Killers

→ **Disclaimer:** This substance is so powerful the DEA tried to control it by making it a banned Schedule 1 substance, but **scientific proof of safety and consumer outcry** reversed this in less than 24 hours.

100 Million People Needed SAFE Relief and that is Why We Created Conolidine 1...

This is the first time in the world that **PURE Conolidine** has been offered in a suspended liquid form.

For the first time, this incredibly powerful liquid alkaloid is available in the United States.

This is your ticket to naturally controlling your pain and getting back to living your life that you have been missing out on.

Imagine waking up feeling **GOOD** and **REFRESHED** without the feeling of daily agony!

Conolidine 1 was 2 Full Years In The Making

This was our path to the greatest pain relief discovery in the last 100 years.

The world wide research was clear, Conolidine was the answer to natural pain relief.

This was the answer many of our customers had been searching for, for years.

They wanted "opiate strength" relief, but they **DID NOT** want the side effects and possible addiction.

The one and **ONLY** solution was **pure Conolidine**.

Our mission was simple, we had to find a way to naturally extract pure Conolidine.

We did our initial analysis in 2015 and saw one glaring problem, there was not an effective "extraction" process developed.

We were going to have a create our own...

Development was More Intense Than Pharmaceutical Development...

So, do we have time invested in this, **YES, Years!**

Well over two years to be exact! This is honestly longer than most companies take to develop a full clinically proven pharmaceutical.

Overall, we had to find the **SINGLE** best source of **Conolidine** and then develop a natural extraction method that would work!

After intense development we ended up patenting an extraction process we now call Ethyl Extraction.

Our ingredients are lab tested and clinically tested internally and externally.

Even with years and years of clinical research published on this astounding natural ingredient...

Including the **LARGEST** Pain Clinical Trial in the world, we still needed our own internal study.

We took our own extracted Conolidine and put together our own Board Certified Human Clinical Trial.

We Found The Most Potent Alkaloid Source in the World.

As the largest importer of raw ingredients in the world, our first mission was looking at copious research and finding the most potent source of Conolidine in the world.

Our research led us to an amazing Alkaloid Potent leaf named **Tabernaemontana Divaricata**. This leaf has the highest concentration of Conolidine of any leaf in existence.

The **next phase** was finding the purest supply in the world. That search led us to the forests of Indonesia where we have exclusive access to this incredible leaf in a **RAW** organic format.

It has never been touched by pesticides or chemicals - It is 100% Pure

Now, the leaves alone can provide relief, but that was **NOT** good enough, we had a mission to create the most concentrated form of Conolidine ever offered publicly.

To do this we needed a potent way to **CONCENTRATE** the formula. This lead us to one of the greatest scientific breakthroughs of all time - Ethyl Extraction.

Our Patented Extraction Process Is Called "Ethyl Extraction"

What you are NOW reading about is a pharmaceutical process enacted on a natural ingredient.

Now, this is a patented process so we can't give away our entire method, but here is the overview. Our medical scientists figured out that Conolidine could be extracted directly from the leaf using a specific natural compound and process. This process would become Ethyl Extraction.

Overall, the extraction process takes two weeks and yields the strongest natural pain reliever in human history!

Conolidine 1 is 100% Pure Sublingual Conolidine...

For the First Time in History 100% Pure Conolidine is available for purchase and consumption.

Are there substances that include Conolidine? Yes.

Has Conolidine ever been extracted and exclusively bottled? **No.**

What you are reading about now is pure **Conolidine** liquid that has been concentrated to over **100 times the strength** of any other known source.

There is zero substance on earth more potent at killing pain.

This is the first time in history Conolidine has been offered in a pure liquid delivery format.

The End Result Is a Total Miracle For Your Chronic Pain...

We can say, without a doubt, this extraction process has provided "**miracle relief**" for those in chronic pain. We were able to take very potent alkaloid and supercharge it well past the expectations of many.

What we are left with is **pure Conolidine** that goes to work immediately reversing pain **MORE EFFECTIVELY** than leading opiates.

You NOW have Pharmaceutical Grade Relief without any side effects!

Here is Exactly How it Works...

US Based Pharm Origins Has Been a World Leader In Natural Product Development Since 2011

All of our Products are Proudly Made in the USA

Pharm Origins is proudly American, located in Atlanta, GA where we conduct all FDA registered product manufacturing and logistics.

We take pride in hiring American workers and doing our part to grow the American economy.

Since 2011 we have taken a very unique approach to natural product development.

Our Mission is to Create Natural, Safe and Affordable Versions of Powerful Pharmaceuticals Using Natural Extraction Techniques

First, through research we identify the **MOST POTENT** and **EFFECTIVE** active ingredients in the world.

Once they are identified we use our proprietary methods to **NATURALLY** extract these **POTENT** active compounds from natural sources, rather than synthetic means.

Many times, very popular synthetic ingredients have **NATURALLY DERIVED** counterparts which are **AS EFFECTIVE** and much safer for human consumption.

In other words, we strive to develop **NATURAL** versions of the most popular pharmaceuticals on the market.

With this approach, our customers are able to get incredible "med like" results while avoiding terrible side effects and the **INCREDIBLY** high costs of Prescription Medication.

This is EXACTLY How we Developed Conolidine 1

The Development of Conolidine 1 Made National News

After 24 Months of Intense Research our R and D Team Made History

Conolidine has been heavily researched by top doctors since 2011, but large batch extraction remained an issue.

After two years of research and trial and error we used our **Patented Ethyl Extraction** system to naturally extract Conolidine.

This breakthrough has made pure conolidine available to the masses in the form of Conolidine 1.

Enhanced Flavoring With Organic Orange Extract

Ok, we need to be brutally honest.

Early versions of Conolidine 1 had a very strong taste due to the raw active ingredient and ethyl extraction method.

But, as of today, we have made a **TASTE BREAKTHROUGH**

After months of research, we found a 100% natural flavor that is tasty, while providing added benefit.

Conolidine 1 NOW includes organic orange extract.

Overall, this extract is an amazing source of essential vitamins like Vitamin C and amazing antioxidants known as anthocyanins.

Anthocyanins specifically boast powerful anti-inflammatory properties which make it a powerful addition to a natural pain relief sublingual.

Best of all, this tasty addition gives Conolidine 1 a smooth, orange flavored initial taste.

During the initial taste testing many forgot this was the most powerful natural pain reliever in the world.

We need to be clear, this flavor is totally natural as Pharm Origins stands firmly against synthetic artificial sweeteners.

Also, the conolidine is **NOT** diluted in any way with this addition, in fact, some claim it feels stronger.

You Can Easily Administer Conolidine 1 in Seconds...

Tested **100% Effective** On Pain Management...

Conolidine 1 tested 100% effective on our internal pain clinical trial. 100% of the tested patients felt the relief provided Conolidine. All research indicates this is truly a pain relief miracle.

Here is What You Can Expect From Every Single Dose...

This is based directly on the results of our FDA Registered Clinical Pain Study.

Many readers want to know what it feels like to ingest Conolidine.

Here is a quick overview:

Conolidine is administered by a dropper, normal dosage is 1ml. Once applied under the tongue, it enters the body sublingually.

Here is what to expect within 15 minutes:

- As each minute passes you will feel better and better. Many trial patients have explained it feels like a gas stove being lowered until it is finally off.
- During this time you will be functional and alert.
- Most people report an overwhelming sense of well being, which is boosted by the fact that they are **FINALLY** out of pain!
- Most people report relief that extends for hours!

Conolidine 1 Benefits Summary

- ✓ Conolidine 1 is **NON Addictive** So You Can Consume Without Fear
- ✓ Conolidine 1 is **Side Effect Free** So You Don't Have to Worry About Ruining Your Health
- ✓ Conolidine 1 is a **Sublingual** so it works in **15 Minutes or Less** Improving Your Life Quality
- ✓ Conolidine 1 is **Designed For Daily Use**, Improving Your Activity Level and Restoring Youth

That is Why if You Want to Live **WITHOUT PAIN!**

Then you are reading the right information. You are discovering the most advanced natural pain reliever in the world.

So advanced, it astounded the medical community when it "**pain tested**" more effective than dangerous opiates without any side effects.

- » Boosted Energy and Well Being
- » Or the ability to enjoy family activities
- » Or even the ability to sleep through the night without being woken up with body aches

This Solution Will Help YOU and Millions of Other Suffers!

Conolidine is Mother Nature's True Pain Killer

This natural alkaloid extract is so proprietary and unique, it's manufacturing process is covered by a worldwide patent.

Luckily for me and for you, you'll have this in your possession in about 1 minute and 30 seconds from now...

You will once again experience waking up in the morning knowing you are always 15 minutes away from being pain free.

However, I urge you to act quickly because the supply of this special formulation is extremely limited and it could be banned by the DEA at any moment...

Just Listen to What Our Customers Are Saying...

It should be noted that our clinical trial yielded a 100% success rate. Here are some of their amazing stories...

I have Lupus and a rare migraine disorder, called Hemiplegic migraines. I have quit taking narcotic pain killers within the past year thanks to Conolidine 1! Conolidine 1 has given me back my life and helps keep my pain under control. I love that it doesn't come with side effects, unlike the previous medications I've been on. Conolidine 1 has changed my life for the better!"

I have MS & leg pain comes with the territory, but when excruciating leg pain wakes me up it is definitely not the most pleasant way to be woken up, especially when it feels like someone is pulling on all your muscles, tendons & ligaments & writhing in pain. It wasn't necessarily everyday but happens in spurts but I have been in the middle of a long spurt. I have been using Conolidine 1 for almost one week before I go to sleep & have not had leg pain wake me up. I also use it when the rest of my body hurts as well. I've been in pain for so many years I have a tendency to just plow through it during the day **IMPORANT INFORMATION ON CONSUMPTION** – It has an alcohol base, so it can burn a bit when you take it. I called the company and they advised I can dilute it further, which I do. There is about a 15 minute delay and then it is pure euphoria.

I've been dealing with chronic migraines for the last couple years now. Over the counter migraine relief medicine became less and less effective, and I couldn't get prescribed anything by doctors. They kept saying it was all in my head, but that didn't make it hurt any less. A friend of mine turned me on to Conolidine 1, and I was blown away how instant the results were! I can finally relief my pain symptoms through a safe and natural way without any sort of additive medications. Unfortunately, I am still plagued with migraines and not any closer to figuring out the root of it all, but I wouldn't be able to get through it without Conolidine 1.

I have acute chronic migraines that, unmedicated, result in pain that is completely debilitating, and at times have landed me in the emergency room with stroke symptoms. Multiple doctors have okayed my use of Conolidine 1 for pain management, as over-the-counter medicine simply does not work and I cannot take opiates. This works exactly as advertised"

I am 39 and have been suffering from lower back and hip pain for most of my life. My pain subsided for a short time when I strengthened that region, unfortunately, life took over and I got less active. Plus I sat around too much. Well, that led to even worse issues than before. This is the only thing I have ever taken that actually helps my pain! I am forever grateful. "

I had a severe spine injury when I was ten years old. My spine literally got pushed into my brain and I have never been the same since. Without your help I would be a goner, using Conolidine 1 combined with a medlight and hemp have saved my life.

Paul Taylor recommends Pharm Origins.

I have lived my whole life with fibromyalgia and have finally gotten relief with Conolidine 1. Prior to finding this amazing liquid, I tried all types of medications, many were prescription grade. The prescription medication didn't work and the side effects completely outweighed any benefit I felt. Conolidine 1 has been a godsend, I can now function as a parent to my four children, while enjoying their activities. I will be using Conolidine 1 for many years to come"

Don't Miss Out if Conolidine 1 Goes Out of Stock

Nothing that is worth anything, comes easy. This statement is 100% true when it comes to the manufacturing of Conolidine 1.

Remember, the alkaloid in Conolidine 1 can only be found in one place in the world – the laboratories of Pharm Origins.

This highly volatile substance is extracted using the advanced and patented Ethyl Extraction method, pioneered by some of the world's great scientists. The highly technical molecular method can only be done manually, under intense scrutiny.

Due to the time spent and production difficulty, Conolidine 1 is **ONLY** produced in small batch quantities.

You will want to reserve a unit while it is **IN STOCK** because they sell out quickly. When out of stock, they could stay out of stock for weeks.

[CLICK HERE >> Claim My Discounted Bottle](#)

* Remember, the DEA even tried to make it illegal, but couldn't, after they were presented with scientific data.

However, We Are Fighting to Keep it Legal...

We are not lying down to this fight. We do NOT want to see this amazing natural pain reliever made illegal or go the way of Big Pharma!

If that happens, it will turn synthetic, become prescription only most of the United States will lose affordable access due to the all mighty dollar of the Pharmaceutical companies – YES – it is THAT strong.

**That is why, if you Want to Try this Amazing
Painkiller, You Need to Act Right Away!**

Due to the technology, this product is made in a
"limited batch" process.

(If the Next Page doesn't load, they have already sold out)

Why would we limit? We really don't want it limited, but we need to limit it based on the production process. The extraction phases takes two weeks to complete, so each batch as a "short term limit".

If it is Sold Out now, they should be back in stock soon (As long as the alkaloid stays available)

Also Remember, the originating leaf, is very rare, and we can only excavate so much at a time. Supply is always going to be rare and limited.

You can try Conolidine 1 - for a FULL 90 Days and if, for any reason at all you are not thrilled with the results, simply return the bottles, even if they are empty and I will buy them back.

My intuition tells me that you really need this relief. And, if pain doesn't decrease (which is highly unlikely), we want to hear from you immediately so we can refund your money.

So let's summarize one more time...

- Conolidine 1 naturally goes to work massaging your pain receptors and allowing you to feel GREAT again, all without addiction or terrible chemical side effects.
- It tested 17 Times Stronger Than Morphine

But you Must Remember - It MAY Be Outlawed and Turned Into a Drug (Your Time to Act Is Now)

[CLICK HERE >> Claim My Discounted Bottle](#)

ACT NOW!

You Have Never Seen Anything Like Conolidine 1 Before - This is the World Premier

Have you purchased "Store Bought" Pain relievers? How did they work?

I thought so, if they worked well you wouldn't have read this far!

Conolidine 1 is **POWERFUL** and **UNIQUE**

Conolidine 1 is a **100% pure Conolidine** and uses an FDA Registered facility that is GMP certified. I know that may not mean anything to you...yet it means that you can have the added protection that all Conolidine 1 is made in the USA and **FREE** of All Contaminants.

That literally limits the supply of this amazing alkaloid, because the supply of raw material is limited and the patented concentration process is intense.

PLUS: the TOTAL production process used to extract the active ingredient and then purify and certify it takes several months.

[CLICK HERE >> Claim My Discounted Bottle](#)

The DEA and Big Pharma could intervene

They tried it back in 2016 and this formula is bound to take billions away in revenue.
