

# Harvard University Study: New Pain Relief Supplement Twice As Effective As Others

By Hanson Wong,  
MD, ND, PhD

If you want to get rid of recurring discomfort, and daily aches and pains in your fingers, hands, wrists, shoulders, elbows, knees, hips, ankles or back once and for all, then you should know about a new and 100% natural discovery.

Here's the bottom line. HARVARD UNIVERSITY reports several human clinical studies showed overwhelming proof that 40mg of Un-denatured Type II Collagen gives amazing pain relief, and a new, 100% natural product with this nutrient is now available to the public without a prescription.

## Proven Over TWICE AS EFFECTIVE As Leading Pain Relief Supplements\*

Clinical research shows the ingredients in **Flamatrol** are over twice as effective at reducing pain and stiffness, and improving overall physical function than the leading natural pain relief supplements and it works over twice as good as Glucosamine and Chondroitin\*.

Let me give you an example. Bob and Carol, brother and sister twins, age 62, both have crippling knee and back pain, which they blame on their genes.

They've tried every pain relief medicine and supplement they could find for over 20 years. They recently told me: **"Doctor, this is by far the best pain relief we have ever gotten from any supplement or medicine in our entire life. The difference between this and other pain relievers is like night and day. Words cannot express how grateful we are you recommended we try Flamatrol"**

Patients have reported **Flamatrol** more effective than Ibuprofen, Aspirin, MSM, Omega 3's, and other pain relievers. I predict these will be called "old", "primitive" and "comparatively ineffective" very soon, and the new gold-standard for fast and long-lasting joint pain relief will be **Flamatrol**

## 2 Missing Nutrients You Need To Be More Pain-Free

The amount of discomfort, stiffness and pain you experience on a daily basis may stem from your body's natural inflammatory response due to aging and the lack of *U.C-II* and *Meriva* nutrients that are found in **Flamatrol**. *U.C-II* and *Meriva*, along with other natural ingredients in **Flamatrol** get to the core of your joint discomfort and help support your body's natural inflammatory response, which can help reduce pain.

*U.C-II* is a special patented form of un-denatured type II collagen. It works by prompting the deactivation of cellular swelling which is causing your pain. This allows your body to recover from the swelling and resume normal joint functioning.

In fact, this is proven by clinical research published in The International Journal of Medical Sciences:

- **Allows** the body to rebuild joint cartilage\*
- **Promotes** healthy joints\*
- **Promotes** joint comfort\*
- **Improves** joint mobility and flexibility\*
- **Improves** quality of life\*

*Meriva*® is patent-pending

In the Western Ontario and McMaster Universities clinical study, *Meriva* use resulted in a 58.4% decrease in WOMAC pain scores. Walking performance score increased from 76 at pre-trial to 332 post-trial.

WOMAC ITEMS:	BEFORE	AFTER	DECREASE
PAIN	16.6	7.3	56.0%
STIFFNESS	7.4	3.2	56.8%
PHYSICAL FUNCTION	56.6	22.8	59.7%
TOTAL	80.6	33.3	58.7%

(WOMAC) is a widely used index to evaluate the condition of patients with osteoarthritis of the knee and hip, including pain, stiffness, and physical functioning of the joints.

Reduction in WOMAC scores measuring pain, stiffness and physical function limits plunged from baseline 80.6 to 33.2.

Compared to doctor's "best available treatment" alone, the treadmill performance showed an improvement of 201% of the walking distance after only two months.

BEFORE

AFTER

Users also showed a 63% reduction in pain-killer use and a decrease and 38% decrease in gastrointestinal problems compared to control groups.

The key to this superior form provides oral absorption rates 29 times greater than unformulated curcumin.

I've included even more of the world's best pain relief nutrients, to make **Flamatrol** guaranteed to work for you much better than anything else available.

White Willow Bark Extract provides COX inhibition, which reduces pain and inflammation in your joints.

MSM is a naturally occurring sulfur compound that prevents and heals pain from physical activity and vigorous exercise.

Devil's Claw has long been used in African culture, with its main active ingredient being harpagoside.

Frankincense and myrrh are unique gum resins with anti-pain processes. They have an extensive history of use in Ayurvedic medicine and studies found users experienced significant decrease in joint pain.

These first-time-ever nutrients in **Flamatrol** means you can now enjoy a pain-free and much better life... starting just days from now.

## You Don't Have To Suffer From Pain Anymore

I'm very excited to say now you can **REDUCE YOUR PAIN** and live like you used to thanks to this amazing new advance. With **Flamatrol**, you can move like you used to, and enjoy fuller range of motion with no more or much less pain.

Now you can get out of bed in the morning without aching, stiff joints, enjoy doing your favorite activities with no pain or stiffness, garden or golf or whatever for hours without stiff knees and an aching back, play on the floor with your children and grandchildren, go on long walks and exercise without pain, and even impress your doctor and friends.

## Reduced Pain 58.4% In Clinical Studies

Are you tired of living from pill to pill that can cause your body more harm in the long run?? Stop this and get rid of your pain once & for all with this first-ever pain reliever of its kind. You can soon have much more energy, feel better and be happier than you have in a long time.

## "I feel great"

"My back used to hurt in the morning when I got out of bed. When I started taking **Flamatrol**, it got better. Now I feel great. Thank you **Flamatrol**!"

- Alberta McNeil, TX

## "Within a week I could feel the difference in my joints."

"I used to wake up from pain in the middle of the night and in the morning my legs were stiff. Since taking **Flamatrol**, I no longer have pain. I can reach up into the cabinets and I sleep all night now. I am so glad I found this product."

- Velma Daigle, CA

## "It has really helped!"

"I had pain and swelling from a sprained my ankle and **Flamatrol** has given me the flexibility to heal."

- Sandra Garcia, AZ

## Risk-Free Special Offer

You can try **Flamatrol** completely RISK-FREE for a full 90 days. If it does not give you the pain relief you want, just return the bottle (even if empty) for a full, immediate refund – no questions asked. The only thing you can lose is your pain.

This product is NOT available in stores or anywhere else except from this announcement. You should call now because this is a limited-time-only special offer that ends soon.
