# "The 'Haldi' Secret: Why Men In India Do NOT Have **PROSTATE PROBLEMS** and how you can get rid of YOURS in 12 days naturally."

*(Hint: It's because of a delicious herb you can eat in America.)*

**T**housands of men now sleep through the night without having to get up to pee. They also have more energy and rejuvenated sexual performance.

This amazing new prostate relief is sweeping America. It is guaranteed to work for you, too, or it is yours free. The secret is this 4,000 year old herb that men in India call "Prostate Magic" because it works so well.

**“**I finally sleep through the night without having to wake up to pee. **This has given me a lot more energy during the day.** My sex life has also become better, and I've noticed an improvement in my pain and mood. This is truly the natural breakthrough I have been hoping for!**”**

# The 'Secret Factor' That Has From Prostate Problems and ***FINALLY*** Available to

Dear Fellow Man Over 40,

I almost got arrested on a flight because of my prostate problems.

On an afternoon flight to New York, I had to get up and pee three times. One of these times I accidentally stepped on a man's foot that was in the aisle.

He said something mean to me, so I said something mean back, but the flight attendant only heard ME. She said I would be arrested when we landed if I didn't "cut it out".

This shocked me. At that

moment, I decided I needed to do something to relieve my prostate problems — now. You see, every day I was bone-weary from fatigue because I had to wake up three or four times a night to pee.

# Protected Indian Men Bad Cell Growth is American Men.

What's more, the stress from this had me wound up tight as a drum.

**And I hate to admit, but my sex life was going downhill too...**

But then...by fate or a stroke of good luck...I got relief from all my prostate problems (and you will too) because I went on a business trip to India and discovered this all-natural secret.

(This is *unique*; you have *NEVER* seen or tried anything like this before.)

**I guarantee this will relieve your prostate problems too — with no drugs or surgery.**

Hello, my name is Pete. I'm a 57-year old married executive who lives in Minneapolis, Minnesota.

Two years ago, I went to India for business.

At a business dinner one evening, we got to joking about how we were all getting older and the problems this caused. I joked that now I had to get up three or four times every night to pee. The American men agreed with me, but the Indian men said they never did, but

often heard this complaint from American men.

The men from India told me to eat a certain herb (available in America) and I would no longer have any "pee problem". Well, I did eat this, and I'll tell you, it worked like magic. I have no more pee problems!

Do you want this result also?

Look, your nighttime "pee problem" is not just the one minute you are actually awake and going to the bathroom at night that matters — it is the interruption of your deep sleep cycle that causes you to feel tired the next day.

But now you can sleep through the night because this all-natural marvel reduces frequent trips to the bathroom at night.

**In fact, I will guarantee you THREE benefits from this all-natural wonder...**

**#1. NO MORE PROSTATE PROBLEMS — Guaranteed!**

- Frequently waking up at night to pee
- Frequent or sudden urges to pee
- Weak urine stream
- Post-urination dribbling
- Need to strain to pee

*(continued)*

- Difficulty starting to pee
- Inability to fully empty your bladder
- Pain or burning during urination
- High PSA score

## #2. NO MORE FATIGUE — Guaranteed!

- Daytime tiredness
- Irritable
- Short temper
- Anxious
- Low mood
- Poor outlook
- Lower concentration
- Declining memory
- Less joy

## #3. NO MORE SEXUAL PROBLEMS — Guaranteed!

- Trouble getting aroused
- Not getting erect or staying erect
- Soft erections
- Less desire

- Less pleasure
- Fast ejaculation

But now...thanks to this marvel...within 12 days you will...**relieve your prostate problems**...have more energy (*from sleeping better by not getting up at night to urinate*)... **be better sexually** (*from better blood flow to penis region*)... and **enjoy life to the fullest** (*because you fixed these problems and feel great*).

That's the good news.

The bad news is if you do nothing and let this go untreated, your pee problem, fatigue, and sex life will only get worse.

## What is Causing Your Prostate Problems?

Prostate problems are also called **BPH (Benign Prostatic Hyperplasia)**.

Most people just call it an enlarged prostate.

It happens because your urethra — the tube that carries urine from your bladder out of your body — passes right through the prostate.

As your prostate grows in size from the aging process, it applies more and more pressure inward and squeezes your urethra.

This causes you to pee more often, wake up to pee at night, be more tired, have sexual issues, and have a much lower quality of life in general.

But this all-natural healer shrinks your swollen prostate back to its normal size so you

# There are many ancient famous sayings about this natural healer, including this one...

You came here; you strained, you toiled.  
What can I give you as you return to your land?  
Let me uncover for you, a secret thing.  
A secret of the gods let me tell you.  
There is a plant. Its roots go deep, like the boxthorn;  
Its spike will prick your hand like a bramble.  
If you get your hands on that plant, you'll have  
everlasting life.

—The Epic of Gilgamesh, 1600 B.C.E.  
(Gardner-Maier Translation)

will have no more prostate problems.

## **Finally...The "Missing Link" for Great Prostate Problem Relief has Been Discovered**

*(And Why 99% of Prostate Supplements Do Not Work Well Enough)*

The Indian system of medicine is called "Ayurveda" (science of long life). It uses mainly plant-based formulations and herbs to relieve health problems, including prostate issues.

**In India, they discovered a yellow herb known locally as "haldi".** This ancient herb spice has a very long history of medicinal use, dating back nearly 4000 years.

In fact, in 1280, Marco Polo described this herb spice, marveling that it had amazing qualities.

In Southeast

Asia, it is so famous and respected, that it is also used as a component in religious ceremonies.

In Sanskrit, there are 53 different names for "haldi", which is known in America as turmeric. These include aneshta (*not offered for sacrifice*), bhadra (*auspicious or lucky*), gauri (*to make fair*), hridayavilasini (*gives delight to heart, charming*), and jayanti (*one that wins over diseases*).

Modern medicine has begun to recognize its importance, as indicated by the over 1,150 articles written about turmeric in recent years.

## **It Relieves Prostate Problems in 4 Different Ways...**

As a potent antioxidant, as an anti-inflammatory, as an antimutagenic, and as an antimicrobial.

(Tilak et al. 2004). (Cohly et al. 1998).  
*(continued)*

According to a study published in *Phytotherapy Research*, its effectiveness is comparable to prescription medications!

But that's not all. It also acts as an analgesic, anti-tumor, anti-allergic, antiseptic, antispasmodic, astringent, carminative, cholagogue, digestive, diuretic and stimulant. Modern science is beginning to recognize the amazing healing qualities of this herb and much more research is currently being conducted.

**I**n Indian culture, the importance of this herb goes far beyond health. The Hindu religion sees this herb as good luck and sacred. There is a wedding day tradition in which this is tied around the bride's neck by her groom. The tradition has been compared to the Western exchange of wedding rings. In parts of India, a piece of turmeric is worn as an amulet for protection against evil spirits.

—LISA GALLANT,  
"Turmeric,  
the Golden Goddess"

**In Ayurveda medicine, this herb is believed to balance the three doshas,** the three bodily humors that

make up one's constitution (named *Vata*, *Pitta*, and *Kapha*).

## **Even More Proof This Herb Relieves Prostate Problems**

"That's impressive, but what about modern day proof that it works? Any studies? Any proof it works using today's cutting-edge science?"

**Yes, a lot of proof!**

A double-blind, placebo-controlled clinical trial published in the *Journal of Cancer Science & Therapy* of two patient groups, one that received it and one that received a placebo. The group receiving it showed significant, long-lasting improvement in urinary ease and less frequent urination.<sup>2</sup>

Another clinical study published in Italy's *Panminerva*

*Medica* evaluated the effect of a supplement taken by persons with BPH (enlarged prostate).

Sixty-one patients were divided into two groups for the 6-month study. The group who received it experienced fewer urinary infections and less incontinence than the control group. Significant improvements in urinary stream and quality of life were also reported.<sup>7</sup> Researchers concluded that it may actually help the body inhibit the compounds that cause prostate enlargement.<sup>8</sup>

And here's even more rock-solid proof that it works. A 12-week study published in 2014 used animal models to compare the effects of *Viagra* and this herb. It produced a notably improved erectile response... making many wonder if curcumin supports erectile function too.<sup>9</sup>

This herb is the main nutrient in the supplement **ProstAll**, yet it is **MISSING** from 99% of other prostate supplements because it

costs the manufacturer more money!

**99% of prostate supplements do NOT contain**

**“Haldi”**, now widely regarded as the most effective nutrient for the relief of prostate problems.

Why? You guessed it: Greed! Greed! Greed! Less expense means more profit for the

supplement sellers!

I call this “The Great American Prostate Pill Rip Off!” But **ProstAll DOES have all the “Haldi” you need!**

But that's not all. In addition to this, **ProstAll** contains five more nutrients that have proven the most effective natural healers of prostate problems! They are...

**The 5 Additional Nutrients in ProstAll to Relieve Your Nighttime Peeing, Fatigue and Sexual Decline**

**SAW PALMETTO**

This is the granddaddy of natural prostate nutrients. A University of Texas study on 2,939 men showed it **eliminated prostate symptoms, lowered harmful DHT levels and increased sex drive!**

## BETA SITOSTEROL

This all-natural plant extract **shrinks your enlarged prostate gland**, reducing or relieving your prostate problems.

This wonder nutrient also restores your healthy sexual desire and potency.

It's proven as a very effective natural healer by four multiple randomized double-blind, placebo-controlled medical studies published in *The British Journal of Urology*.

How effective? **Men scored an average 353% improvement in symptom relief** in their Prostate Symptom Score in the largest study conducted! (*For study information, see the References section at the end of this report.*)

In fact, it works so well that it is the main ingredient in several prostate prescription drugs taken by millions of men in European countries like England, Germany, Italy and France.

You can't get enough Beta Sitosterol from your diet. A handful of roasted peanuts or two tablespoons of peanut butter contain only 10–30 mg of Beta Sitosterol, and your body needs the 180 mg that is in **ProstAll**.

## PYGEUM EXTRACT

This has proven to work great for nearly 50 years in Germany and Austria for men suffering from prostate problems.

And Pygeum is the #1 most commonly used medicine in France for prostate problems, backed by many double-blind studies pointing to its effectiveness! It contains phytosterols which have been shown to reduce inflammation by inhibiting/reducing prostaglandin production, an important factor causing prostate enlargement.

**It increases your urine flow rate and bladder emptying.** All studies indicate that this herb works differently than Saw Palmetto, so the **combined** effect of using both is to your advantage.

**It relieves your sexual side effects and problems** that are caused by an enlarged prostate, which is why men report a much higher happiness level after taking this.

## LYCOPENE

This nutrient substantially reduces prostate problems. It reduced PSA levels in men by 17%. (The higher the PSA level, the more likely men are to

# In Just 12 Days, You Will Be Healthier and Happier!

When you take the all-natural supplement **ProstAll**, you are **GUARANTEED**...

✓ **NO MORE** frequent trips to the bathroom in the middle of the night! **NO MORE** having to get up 2, 3, 4 or 5 times during the night to pee! You will get relief from this frustration.

✓ **NO MORE** peeing out only *some* of your urine when you go. You will **FULLY** empty your bladder every single time.

✓ **NO MORE** getting anxious about locating the bathroom every place you go in case of an emergency.

✓ **NO MORE** broken up sleep and waking up tired because you can't sleep through the night. You will now sleep through the night and wake up rested and refreshed! Night after night of deep restful sleep!

✓ **NO MORE** sexual problems with arousal and staying erect because of your pros-

tate problems. Now you can get back the sexual power that you thought was lost forever!

I want to tell you, all this happened to me, and scores of men tell me the same thing, so **I'm confident you will gain these benefits too:**

- **Feel more "alive"**
- **Get more things done**
- **Be a better partner**
- **Think sharper and clearer**
- **Enjoy new activities**
- **Make more friends**
- **Be a happier person**

have prostate illness.) A study showed it slowed illness progression in men. It protects healthy prostate cells from damage. It's nine times stronger than vitamin E as an antioxidant.

Harvard University researchers found men who have abundant levels are 45% less likely to develop prostate illness. Dr. Omer Kucuk, an oncologist, reports men given Lycopene had smaller prostates than those given a placebo!

## **SELENIUM**

Imagine being able to identify abnormal cells in your prostate and then triggering a switch that causes them to self destruct — without damaging any of your healthy cells!

Well, guess what? You don't have to imagine it — you can just take this amazing nutrient Selenium!

*(continued)*

Researchers have discovered all of our cells have a “suicide switch” that naturally eliminates old and damaged cells. It’s a normal cycle of programmed cell death called apoptosis.

But with abnormal cells, the suicide switch sometimes gets stuck and doesn’t turn on fast enough. That’s why these abnormal cells can keep procreating! But a study

performed at Purdue University made a remarkable discovery... the subjects with the highest levels of selenium in their bodies had twice the level of apoptosis occurring in the other tissues!

This is such a breakthrough discovery that the National Cancer Institute began a massive 12-year human trial to confirm the protective benefits of selenium.

Now remember, **ProstAll** contains all five of these “extra” nutrients **in addition to** the superstar nutrient “Haldi”, which is missing from 99% of other prostate supplements.

You can take no finer or more effective prostate supplement. Its unsurpassed quality has made it our **#1 best-seller** and it is sweeping the world.

## Your Prostate Problems Must Be Relieved Right Now...Before They Get Worse and Destroy Your Life!

Your prostate problems can get you fired...crush your sex life...land you under a surgeon’s knife...and even make your life a living hell!

**I beg you** not to wait even one more day to relieve your prostate problems. Don’t be like so many men who put this off — then pay a huge price in pain, money and suffering later!

### **“You’re fired!”**

You cannot possibly stay alert at work if you’re getting up two...three...four... times at night to pee!

This can get you fired quick...and with no letter of recommendation.

### **“Here’s a speeding ticket!”**

“Sorry officer, I had to pee,” won’t get you off from a speeding ticket or traffic court.

### **“You can’t have sex anymore!”**

The pressure from an enlarged prostate can make it difficult to experience a firm and long lasting erection. Don’t let it rob you of your manhood!

### **“You need risky surgery!”**

Surgery for serious prostate problems is very common for men who do not take action soon enough. Don’t let yourself be next under the knife!

Your prostate problems can lead you to divorce, depression,

impotence and unemployment unless you take action and get relief.

I'm not exaggerating when I say your prostate problem can make your life miserable, because it did mine and millions of other men.

## **Your Prostate Problems Will Get Worse and Worse Until You Get These Essential Nutrients Into Your Body!**

Let's face it. You and I are fighting Father Time. And one thing we know is that getting older can sometimes really stink, right?

**Health problems:** we get *new* ones, and our *existing* health problems grow *worse*.

In our fight against aging, U.S. men over 50 can count on one thing: our health problems will only get worse unless we take action to relieve them!

Wishing and wanting better health won't magically make it happen. Hope is great, but it's not a good health strategy.

You should be proactive; take action, make it happen, get the right nutrients into your prostate to fight-off problems you will or already encounter.

**If you fail to do this...**

- Your symptoms will get worse
- You will suffer more
- Your body will weaken and you will be a sitting duck for more health problems

“My husband's nighttime waking to urinate, and his weak partial urination are history now thanks to your natural product.”

—Mrs. Schwartz, Indianapolis, IN

## **Your Prostate Problem Could Be an Early Warning Sign of More Serious Problems!**

Not only are your symptoms disruptive, inconvenient and embarrassing, they may be early warning signs of more serious prostate problems.

These problems could require drugs, PSA tests, painful prostate biopsies, radiation or microwave treatments, and perhaps worst of all, invasive prostate surgery that can make you...

- **Incontinent, having to wear diapers**
- **Impotent, the loss of all your sexual functioning**

With all this at stake, it makes good sense to deal with your prostate issues at the earliest stages, and that time is right now.

## **Don't Expect the Big Drug Companies or Medical Establishment to Help You Either!**

Let's face it. It's us against them.

We are American men age 50 and up.

They are the \$4.2 TRILLION a year medical establishment that

*(continued)*

makes money ONLY when we are sick, see doctors, take prescription drugs or have surgery!

Think about that.

I am NOT saying most doctors, hospitals or drug companies are bad or evil. What I AM saying is that our Big Medical Establishment is set up to work against us — instead of for us — because all the big money is made only by treating us after we are already ill.

If that's not bad enough, do you ever feel like you are just a pawn in a game run by the Big Medical Establishment? Used? Maybe even abused? Just a number?

Well, I sure do. And I'm sick of it! And I'm not going to take it anymore!

## **Natural ProstAll Relieves Your Frequent Nighttime Urination and Fatigue...**

**Plus gives back your lost sexual desire and stamina you had as a younger man**

As you grow older, the cells in your **prostate gland** overgrow and swell up. This enlargement blocks your bladder opening.

This results in slow, painful, incomplete, urgent and frequent urination. It also lowers sexual arousal and potency.

If you want to “feel” how this works, go outside, grab your water hose and turn the water on just a little. Now try to pinch off the hose with your fingers to stop the water from flowing. Do

you feel the pressure begin to increase? It is that pressure and the urge-to-go that is keeping you up at night with all those trips to the bathroom.

**ProstAll** contains the all-natural herb “haldi” that **shrinks your enlarged prostate gland...** which relieves these problems. This wonder nutrient also restores your healthy sexual desire and potency.

It is proven effective by four different multiple randomized double-blind, placebo-controlled medical studies published in leading professional journals.

How effective? Men scored an average **353% improvement in symptom relief** in their Prostate Symptom Score in the largest study conducted!

It has proven so effective, it is the main ingredient in several prostate prescription drugs; taken by millions of men in European countries like England, Germany, Italy and France. And it is the reason men in India do NOT have prostate problems.

## **Get More Quality Sleep Again! And Enjoy a Much Better Life Every Single Day!**

If you're getting up to pee every few hours — you're losing out on quality sleep — and that can wreak havoc on your entire body. Without adequate sleep, you'll likely experience:

- ...Low energy levels!
- ...Dull thinking!
- ...Slower reflexes!

# Mike Was So Sick and Tired from Getting Up 3 Times a Night to Pee

**M**ike H. loves to golf. He took early retirement from General Electric at age 62 and started his “dream life of daily golf” in Orlando, Florida.

“For the first year I was retired, it was like a dream. Then my dream started turning into a nightmare. I started getting up 3, 4, 5, even 6 or more times a night just to pee!

“I was dog tired all day because I couldn’t get enough good uninterrupted sleep. My doctor prescribed two prostate drugs, but they didn’t work that well, and the side effects were terrible. Then he mentioned surgery!

“That was the last straw. I couldn’t get the relief I needed from The Medical Establishment, so I decided enough is enough

and I decided to take matters into my own hands.

“I did research like a college kid for over a month, and concluded that “Haldi” was the

**natural ingredient I needed to relieve my prostate problems.**

I’d heard about this product from a few friends, so I called and spoke to the company and ordered **ProstAll**.

“In five days, my nightly trips to urinate were down from 4 to none or only 1. I finally got real sleep and this gave me energy like I used to have. My sex life came back to normal too. I hope men don’t give up hope or resort to surgery like I almost did. **Try this — it really works!**”

...Premature aging!  
...Poor sexual performance!

But now — with **ProstAll** — you will sleep through the night...and these problems will be gone very soon!

Your entire life will be different. You will feel like a new and younger man because you will have your old “mojo” back!

**Studies Show It Also Reduces Joint Pain, Cholesterol, Allergies and More**

Recent studies show these nutrients lower inflammation pain levels, allergy symptoms and

viral sicknesses from a lowered immune system.

This occurs through its effects on controlling the production and activity of cytokines in the body, which cause inflammation.

In terms of cholesterol reduction, three studies have shown Beta Sitosterol, consumed for four weeks, can reduce total and LDL cholesterol level by 19.6%.

“Haldi” is used traditionally as an herbal medicine for rheumatoid arthritis, chronic anterior uveitis, conjunctivitis, skin problems, small pox, chicken pox, wound healing, urinary tract  
*(continued)*

infections, and liver ailments  
(*Dixit, Jain, and Joshi 1988*).

It is also used for digestive disorders; to reduce flatus, jaundice, and colic; for abdominal pain and distension (*Bundy et al. 2004*); and for

dyspeptic conditions including loss of appetite, postprandial feelings of fullness, and liver and gallbladder complaints.

*Vigilant Citizen* reports recent studies not only prove what Ancients knew about Haldi, they are also discovering several applications for modern ailments...

- Inflammatory Bowel
- Rheumatoid Arthritis

- Bad Cell Growth and Metastases
- Bad Prostate Cells
- Liver Malfunction
- Cardiovascular Problems
- High Cholesterol
- Cognitive Decline

Yes, that's a very impressive list... and the research has barely started.

### **100% Safe with NO Side Effects or Drug Interactions**

The medical studies have not shown even a single side effect from taking any of the six nutrients in **ProstAll**. Because they have been used for ages by millions of men safely, and they are even on the U.S. Government's lists of nutrients Generally Recognized As Safe (GRAS).

...decreased libido, premature ejaculation and impotence. One of these drugs can even cause severe birth defects, cause vertigo-like symptoms and has been linked to an increased risk of prostate cancer.

These alpha-blockers do nothing but temporarily relieve BPH symptoms. The prostate continues to enlarge and eventually surgery may be necessary.

The prescription drug FLOMAX® lists 18 potential side effects right on its label! This includes chest pain, decreased libido, insomnia, blurred vision and abnormal ejaculation.

## Has Your Doctor Warned You About These Scary Side-Effects of Taking a Prostate Drug?

**“My M.D. recommended your product instead of a prescription drug. I was skeptical, but it has relieved my 2, 3 or 4 trips each night to urinate.”**

—Bob Harding,  
Olympia, WA

If you believe all the advertising by drug companies, you'd think their drugs were God's gift to prostate health!

**Here is what the prostate drug companies hope you NEVER find out...**

It's true that some men have experienced moderate success in reducing prostate size and problems — but is it worth this serious risk to your health?

The truth is, it can take as long as six months before you notice any significant improvement in your prostate health while taking one. But in the meantime...taking a drug can substantially INCREASE your risk of developing abnormal cells in your prostate!

Here's the proof...according to a clinical study conducted by the prestigious Norris Cancer Institute of the University of Southern California, men taking a best-selling prostate drug increased their risk of abnormal cell growth in their prostate by 300%. That's not a typo — 300 PERCENT!

**If that's not bad enough, other side effects of drugs include a loss of sex drive...**

*(continued)*

**premature ejaculation...and even impotence, for goodness sake!**

And a drug is so powerful — it can cause birth defects in pregnant women who come in contact with the sperm of a man taking it!

Another serious—yet little known — side effect is, it can artificially lower your PSA levels by as much as 60%? Why is this

a problem? Because it can give you a FALSE negative test result! In other words, it can increase your risk of developing a serious prostate problem, and then...it can prevent tests from detecting the most life-threatening health problems!

Here are just a few of the harmful side effects of prostate drugs:

...**Decreased libido**

...**Ejaculatory disorders**

## What Men Like You Are Saying

“**My PSA level was too high, so I started taking ProstAll** three months ago and now my PSA level is down a lot and I’m very healthy according to my doctor. This may have saved me from surgery or worse!”  
—*Frank Theon, Tarpon Springs, FL*

**“Thank you for ProstAll.**

My life is now 10 times better because I sleep through the night and have energy all day, and I’m back to being a superstar in the bedroom!”

—*Mark C. Bronson, Hope, AR*

**“This is working much better than the prescription drug for me.** I am emptying my bladder fully each time I go and I don’t have the dizziness the drug used to give me.”

—*Ralph Prestin, Modesto, CA*

“**My frequent but incomplete urinations were driving me nuts!** My wife thought I might be going crazy and recommended we see a psychiatrist! The good news is that I have relieved my bladder problems now from taking **ProstAll** and my lovely wife says I’m normal again.”

—*Pat Tenman, Carefree, AZ*

**“I didn’t feel like ‘a real man’ anymore before I started taking this supplement.** I’m

excited to say my problems are 100% gone now and I feel like a real man again!”

—*Douglas Petronia, Hibbing, MN*

**“Finally! Yours was the 4th prostate supplement I tried.**

I still had urination and erection problems from the other products, but yours has relieved my prostate problems.

**ProstAll** works like you say — you’ve made me a loyal customer!”

...Impotence

...Can cause birth defects  
in pregnant women via sperm  
of man taking it

Why haven't men with prostate  
problems been told these facts?

**WARNING:**  
**Don't Lose Your**  
**"Manhood"!**

Getting older is one thing...  
but losing your manhood is much  
worse!

**This is shocking.** Here is  
what the pharmacy insert for the  
#1 selling prostate prescription  
drug says:

**"The most common  
adverse reactions reported  
in subjects receiving it  
were impotence, decreased  
libido, breast enlargement  
and tenderness, and  
ejaculation disorders."**

And... "A treatment period  
of at least six months is usually  
necessary to see if it will  
work for you."

And... "Do not  
donate blood until  
at least six months  
after stopping it."

What's more, prescription  
drugs only try to cover up the  
symptoms. They DO NOTHING  
to fix the underlying cause and  
problem.

### **Relieves Your Fatigue**

Do you get tired during the  
day, or early at night, when you  
don't want to be? Does this  
fatigue make you less happy?

Less productive and successful?

When your enlarged prostate  
makes you wake up three or four  
times a night to pee, this destroys  
your body's natural sleep cycle,  
even if you fall back to sleep im-  
mediately.

This waking up at night to uri-  
nate often causes fatigue during  
the day for you. The solution is to  
take **ProstAll** so you STOP need-  
ing to get up at night so often...  
then your sleep will improve...  
then your fatigue problems will  
be gone.

**Your Health And**  
**"Manhood" Will Suffer**  
**If You Ignore This!**

***You could be the next victim  
on the operating table,  
incontinent, impotent or worse!***

Your prostate is **THE KEY**  
**to your sexual arousal and**  
**performance.** Your very  
"manhood" depends on having  
a healthy prostate gland.

If you don't make and keep  
your prostate healthy, you could  
be "out of business" in the sex de-  
partment and it can be permanent!

**Man to man:** This natural  
wonder is sexual rocket fuel!

Your prostate is vital. You could not make most of the semen you make, and you could not ejaculate without it.

**Now, with ProstAll you can have the fun, excitement and satisfaction of a red-hot sex life.**

There is no need to give up sex because you have prostate problems anymore!

**Don't ignore your prostate health and suffer.** Each year over 400,000 men in the United States alone undergo prostate surgery which can result in incontinence or impotence.

Are you ready to wear diapers, or never have sex again?

**I Have Carefully Compared This to Other Leading Products on the Market...**

**And I 100% Guarantee You Better Results**

My wife tells me I'm a perfectionist and maybe she is right. But I tell her when it comes to something so important to men, I must be a perfectionist.

Please don't be fooled by cheap imitation products that have misleading or inferior ingredients that do not work. I have reviewed dozens of prostate supplements in drugstores, grocery stores, discount stores and online...and I recommend you do not waste your money on any of them.

If you are taking one of these inferior products, you are partially throwing your money away!

**In my opinion, the three leading prostate supplements sold in stores and online are all a huge rip-off!**

For example, the largest chain of vitamin stores has their own

Prostate Formula, but it contains NO "Haldi" and only 160 mg of Beta Sitosterol.

The largest retailer in the world publishes a list of their best-selling prostate supplements. The top-seller has NO "Haldi" or Beta Sitosterol in it!

Then there's an M.D. in Maryland selling a prostate supplement for \$20 a month, yet it has NO "Haldi" and only a trace amount of Beta Sitosterol!

Remember, it doesn't matter how cheap it is if it doesn't relieve your problems and protect you against surgery or impotence.

**In Just Days You Will Enjoy ALL This...**

- Much more **energy**  
*(from not having to wake up each night to urinate)*
- Peeing with **no pain** or burning sensation
- Feeling your **bladder is empty** after you go
- Pee comes out **easily**
- Pee comes out **fully, fast and consistent**
- Stronger, harder, **longer-lasting erections**
- Increased **sexual desire**

# Questions & Answers

**Q: "I eat a healthy diet — don't I get these nutrients my prostate needs?"**

**A: NO.** It is impossible to eat enough of the right foods to get the nutrition your prostate needs, as you'd have to eat over 11,000 calories of certain foods every day.

**Q: "I take a good Multi-Vitamin — is that enough?"**

**A: NO.** Even the best multivitamin — and those with so-called "prostate support" — lack many of the nutrients in our formula that you need for your prostate.

**Q: "What if I'm NOT suffering from prostate problems yet?"**

**A: Prevention is the best medicine.** And your prostate is your weakest link. Now is the time to take control of your manhood, which is your prostate health. Start taking the right nutrients now to keep it healthy. Get **ProstAll** now before problems start so you can

prevent troubles in the future! It's a huge mistake to ignore your prostate health. Are you ready to wear diapers, or never have sex again?

**Q: "What if I'm taking Saw Palmetto or other supplements now?"**

**A: If you feel Saw Palmetto is working for you now,** it will continue to work for you, and you will also get more relief and protection because **ProstAll** has 100mg of Saw Palmetto PLUS FIVE other proven ingredients for a healthy prostate, including Beta Sitosterol!

**Q: "Can I take ProstAll if I am on doctor-prescribed medication?"**

**A: YES.** If your doctor or pharmacist says that it's okay for you to take a daily multivitamin, then you should have no problems with it. There have been no interaction problems reported.

**NEW!**

## Finally, No More Worry, Fear or Embarrassment From Your Prostate Problems — Ever Again!

I used to suffer from prostate problems too. I know how frustrating it is. But just like I did, now YOU can relieve all these issues in just weeks! *(Place a check-mark next to the problems you want to relieve)*

- Afraid you'll have to "go" at the worst possible times
- Embarrassed you have to leave to pee so much
- Anxious about teasing

and getting made fun of

- Sick of making excuses about it to other people
- Afraid you could need prostate surgery
- Fed up with urination issues effecting your daily life and happiness
- Worried about having to go at movies, meetings, driving, social events, on dates
- Makes you feel old, depressed, angry or over-the-hill
- Sad by your loss of sexual desire

*(continued)*

- Demoralized by your weaker, smaller or **shorter-lasting erections**
- Afraid of becoming **impotent**
- Afraid of having a life-threatening **prostate illness**
- Afraid your wife — or girlfriend — will leave you due to your **reduced sexual desire and performance**

## Let's Talk About Your **SEX** Life...

Hey, it's perfectly normal to have sexual issues when you are suffering from prostate problems. All men do. It is NOT your fault — it's your prostate's fault.

When you relieve your problems with **ProstAll**, you will rediscover sexual excitement — feel frisky and **perform like when you were younger again!**

Prostate problems *destroy* your sex life. Once you get rid of your prostate problems, it will mean **EVERYTHING** to your sexual desire and performance!

You will see an immediate increase in your sexual performance and stamina.

A fired-up sex drive — to make your sex life sizzling again! There will be no stopping you now!

**This “fires up” your sex life!**

You will soon rediscover sexual excitement — and perform like a much younger man again!

Many men have told me their low libido has now been **replaced with a strong sex drive and MUCH BETTER performance in bed!**

Now you can make your sex life sizzling again — and be much happier — and your spouse or girlfriend will be too!

## What Makes **ProstAll** Different and Better Than Other Prostate Supplements?

You can go to any drug store or vitamin shop and find a dozen different prostate supplements.

They are virtually or totally **INEffective** because they don't have “Haldi” or all the other nutrients you need.

For people who don't know any better, taking a prostate supplement — any one — is enough for them. But I know **YOU are much smarter**, and you want the best for your health and future. That's why **ProstAll** has all the nutrients your prostate needs, and in dosages that are proven effective!

To your improved health and life,
