the battle against joint pain is a very surprising nutrient, **Natural Egg Shell Membrane (NEM)**.

This is the thin membrane between the egg shell and egg white. It contains proteins that help to repair the cartilage network in between your bones!

It has been proven effective in many clinical studies and peer-reviewed articles. A patient study published in March found it had a positive impact on joint health with patients reporting a positive result as early as 10 days after beginning to take it.

Another study published in May issue of *Clinical Interventions in Aging* summarized it supported joint flexibility within 7 days with clinically meaningful results.

That's the best proof you will ever find that any natural supplement works.

NEM gets rid of joint pain so effectively because it contains all these nutrients your joints need:

■ **Collagen** — a fibrous protein that supports cartilage and connective tissue strength and elasticity.

■ **Elastin** — a protein that supports skin, cartilage and spinal health. It helps to give tissues elasticity and the ability to resume shape after stretching.

■ **Glycosaminoglycans (GAGs)** — small amounts of polysaccharides such as

glucosamine, chondroitin and hyaluronic acid that are the structural components of the skeletal structure and connective tissues of the body. And...

The 3 “missing nutrients” your joints need, but that are NOT in other joint supplements:

■ **Desmosine** — a virtually unknown amino acids that is responsible for helping with the elasticity of joint tissues.

■ **Isodesmosine** — a lysine derivative found in elastin.

■ **Growth Factor B** — helps with cell regeneration and joint pain immunity.

For more proof, a study was published in *Clinical Rheumatology*. Joint pain sufferers had **a jaw-dropping 72% reduction in pain** after only thirty days! In addition, they also saw a 43% increase in flexibility, allowing them to do their daily tasks with much less pain and discomfort than before.

These clinical studies prove one thing: **NEMflex is the most effective natural solution to joint pain ever discovered!** If you want to finally get relief for your aching joints, you need this to get this supplement today.

Don't Take Any Pain Reliever Until You Read This! Pain Medicine Can Actually Make Your Pain WORSE!

**Here is a scandal that I
must expose!**

Many studies prove that over-the-counter pain reliever NSAIDS (Tylenol, Aspirin, Advil, Motrin, Celebrex, Naproxen and others) can cause stomach ulcers, diarrhea, internal bleeding and liver damage!

HARVARD HEALTH newsletter confirmed arthritis patients experienced hip joint destruction from taking high doses of a medication.

**Any
good doctor
will admit**

this fact: Over the counter pain relievers and pain meds do **nothing** to heal the damage that is causing your pain. This means the underlying damage that's causing the pain only grows **WORSE** with time.

Pain meds actually degrade and aggravate the joint and cartilage problems over time. They also **STOP** your body's own pain-killing enzymes from activating to heal the pain! Steven Sinatra, M.D., proclaims *"Most MD's realize that all conventional painkillers, arthritis drugs and NSAIDs (including aspirin) BLOCK your body's natural ability to repair cartilage."*

Pain meds can give you high blood pressure (which can be

deadly). They can rot your gut — eat away the lining of your stomach. They damage the gastrointestinal tract. They slow down the liver.

Look: If you ignore this all-natural breakthrough, don't be surprised if you suffer from heart problems from high blood pressure, ulcers, core damage to the joints, cartilage and tissue requiring surgery.

**You can be more ACTIVE and
PAIN-FREE in just days...
with NO SIDE EFFECTS!**

You can take **NEMflex** until the cows come home, and your biggest worry will be ... what fun activity should you do next?

I could go on and on about the side effects and dangers of pain medicine, like 20,500

Americans are **KILLED** each year from taking NSAIDs and Cox-2 inhibitors! Or after reviewing 5,930 patients, a University of Pennsylvania cardiologist concluded: NSAIDs can **DOUBLE** your risk of a **HEART ATTACK** or **STROKE**.

Why choose pain relief that is only temporary, and could be potentially dangerous? There is now a much more effective and safer option. Don't risk your

health and future! Now you don't have to with **NEMflex!**

Mother Nature's Strongest Pain-Reliever!

Mother Nature is truly amazing, isn't she? This new joint healing discovery comes from **eggshells!** While this may seem surprising, think about what happens whenever you peel a hard-boiled egg. You've got to break through a thin — but tough — membrane that separates the eggshell from the liquid egg inside it.

Why is it so tough? Think about it... this incredibly durable membrane needs to provide enough structure and support to allow a nearly 10-pound hen to sit on the egg without cracking it. In fact, eggshells contain such a complex mix of proteins and other natural substances, it takes a full 20 hours for them to form inside of a hen!

Just recently, scientists discovered that eggshell membranes are made of the exact same ingredients as human joints. In fact, it is one of the only substances on earth that contains a full range of nutrients that rebuild cartilage and connective tissue!

In the eggshell membrane, nature has created the ultimate formula for strong yet pliable connective tissue, binding the

mentioned ingredients together with glycosaminoglycans, calcium and proteins in a unique biological matrix.

All shells come directly from USDA-inspected facilities. In fact, every eggshell is 100% traceable all the way back to the farm! Plus, it is produced through an all-natural, solvent-free process that produces no waste products and yields a pure ingredient that contains no artificial additives, no preservatives and no pesticides or chemicals of any kind.

The 10 nutrients in **NEMflex** are Natural Eggshell Membrane, Hyaluronic Acid, Glucosamine, Chondroitin, Collagen, Amino Acids, Boswellia, Turmeric, White Willow Bark, Devil's Claw and Yucca Root. Here's how a few of these amazing pain-relief nutrients work:

■ **Tumeric.**

Also known as Circumin, this comes from a spice grown in India. It has been used successfully for over 4,000 years to reduce or end pain. Dr. Randy J. Horwitz wrote in the *American Academy of Pain Management*

NEMflex Questions and Answers

“NEMflex sounds great, but will it work for ME?”

Let's face it. You've tried other pain relievers that did not work as good as promised. You are rightfully skeptical.

The 10 nutrients in NEMflex are proven to work in clinical studies – the highest level of proof – and by thousands of people like you. In fact, it is so effective that you will get a full refund plus extra cash back if it does not get rid of your pain. The answer is yes, this unique breakthrough will work for you!

“Have these nutrients been studied?”

Yes. In multiple double-blind, randomized, placebo controlled studies. The results were amazing, as **participants experienced decreased joint pain and stiffness.**

Safety has also been tested and there are no reported side effects. The 10 nutrients in **NEMflex** are Natural Eggshell Membrane (NEM), Hyaluronic Acid, Glucosamine, Chondroitin, Boswellia, Turmeric, White Willow Bark, Devil's Claw and Yucca Root.

“Why should I choose this instead of other products?”

This product is based on the most cutting-edge and revolutionary joint pain relief studies. We took all 10 of the most effective pain-relief ingredients with full dosages and put them into one pill. This includes NEM and 3 nutrients your joints need, but that are not in other supplements.

“What if I'm taking pain relief supplements or medicine already?”

If you want the best pain relief available – if you are serious about your freedom and mobility – it's time to put **NEMflex** to work for you. Even if you're already taking supplements or medicine for your joints, you'll want to add **NEMflex** to your care.

Journal: “**Turmeric is one of the most potent natural anti-inflammatories available,**” It lowers the levels of two enzymes in the body that cause inflammation.

■ **Yucca**

Root. *Yucca schidigera* is a medicinal plant native to Mexico. According to folk medicine, this plant was used in traditional medicine by Native Americans, these yucca extracts have anti-pain and anti-inflammatory effects. It’s saponins have anti-pain properties by suppressing intestinal protozoa which has a role in joint inflammation. Yucca is also a rich source of polyphenolics, including resveratrol and a number of other stilbenes.

■ **Devil’s**

Claw is a rare herb. *The British Herbal Pharmacopoeia* confirms it has analgesic (pain relief) properties. Devil’s claw has been used internationally for centuries to help end muscle pain (myalgia), back pain, tendonitis, joint pain and headache pain.

■ **Boswellia**

is an herb used in Ayurvedic medicine [the traditional medicine of India] to treat pain and its related symptoms. “Anti-inflammatory herbs come in combos quite often. These herbs inhibit the formation

of prostaglandins, which cause inflammation,” adds Eileen Klein, M.D.

■ **White Willow.**

This provides COX inhibition, which reduces pain and inflammation in your joints. It appears to be much safer than use of aspirin.

WARNING:

If You IGNORE This Breakthrough... here's what will happen to your pain

Or maybe you will just have to take stronger and stronger pain medications — and risk becoming addicted.

No matter what, your life will suffer, and the lives of everyone you love will suffer too, because you will not be yourself.
