

Be Ready At All Times

Access Your Chambered Firearm In 2.3-Seconds Or Less

If you're like most gun owners you keep your home defense weapon in a safe...usually, in your master bedroom closet. Nothing wrong with that except...what if you need to quickly access it to protect family or yourself from a home invasion or burglary?

By the time you make your way to the safe and unlock (in the dark)...you're already too late!

In fact many experts believe if you can't get to your gun within 10-15 seconds there's no point of having it around as home defense weapon.

In order to protect yourself, family and property you need to be able to get to your weapon in seconds no matter where you're at in the house.

The trick is how do you do that?

The fastest, easiest and most practical way is too strategically place a Tactical Trap in your home or office...

What is a Tactical Trap? It's a free floating of wood shelf that conceals your guns, magazines or even valuables in plain sight.

Press Play And See How It Works

The Tactical Trap has no keys to lose, no magnets, no combination lock, just a state of the art RFID (radio frequency Identification locking system) that opens the shelf in one second. This is a new FREE upgrade we're offering that's only guaranteed until Wednesday, 30th of October 2019. It's so new we haven't even changed the video (above) yet. More on that later...here's how it works...

- 1 Just place the "key card" (included) over the center of the shelf...
- 2 This sends a signal to the lock to open (less than one second)
- 3 The shelf opens up like a secret trap door to expose a high-density foam lined cavity holding your firearms.

If that wasn't cool enough....the RFID lock comes with a built in safeguard that warns you when the batteries need replacing so you never have to worry about being locked out

The shelf itself is made with top grade lumber which gives it a high-end custom look. Each piece is hand selected by master carpenters and cut to the exact tolerances using special \$100,000 CNC machine.

Why do we go through all that trouble? It's simple... it's unsightly gaps that give away a hidden trap door... but when they're cut to precision it's easy to conceal firearms, magazines, documents, cash, computer files, whatever you wish... safely and securely in plain sight.

Take a look at the picture below...it's virtually impossible to see the secret trap door with two hidden pistols ready to rock and roll at a moment's notice....

Customize Your Foam Insert To Fit ANY Model Handgun Or Magazine

Each Tactical Trap comes with a customizable foam pad that is to be trimmed to fit your weapon. Simply place your gear on top of the foam however you want to display it. With a handheld razor, cut around your weapon, your optics and your magazines, whatever, and peel away excess foam. Your firearm will snug safely and securely into place. The foam is deep enough to hold any weapon you have.

The Tactical Trap measures **22 1/4" Inches Wide X 10 1/4" Deep**. It's a perfect size to place in a foyer, hallway, living room, bathroom, home office or just about anywhere.

You can easily fit two full handguns beautifully displayed as well as some magazines. In the picture above I've got a Para Black Ops .45...Sig dark elite p229 and two magazines.

Numerous Finishes To Match Your Decor

Ebony

Cherry

White

Early American

Dark Walnut

Unfinished

Did I just use the word "decor"? Don't tell anyone! But seriously, we can make your Tactical Trap in any choice of six wood stains... Natural, Dark Walnut, Cherry, Maple, Ebony or unfinished that can be painted or stained in whatever color you choose.

Easy Installation... No Assembly Required

Our Tactical Traps are designed to work easily with standard 2x4 construction... so it can be safely and securely mounted on any wall in any home or apartment. You don't have to do any custom work to the wall... there's no sheetrock cutting or anything like that.

Just open up the box and screw it to your wall with the included hardware. It will take 20-minutes or so to install it... and the hardest thing you may experience installing a Tactical Trap is what wall to install it on.

Quickly and Easily Mount Your Tactical Trap Anywhere You Want Instant Access To Your Guns

One question I get all the time is...."where should I mount my Tactical Trap?" The answer is anywhere you want. Because of the compact size it will fit in virtually any room you want access to your guns.

Some people put it in the foyer by their door. Others put it in the living room, man cave, home office, bedroom or even bathroom (you never know-right!). The Trap looks amazing no matter where you mount it. This is a big reason why the majority of our customers order 2 or more Traps.

You Get \$95.52 In Free Upgrades When Your Order Today

Disclaimer: Upgrades are only GUARANTEED Until Wednesday, 30th of October 2019. After that we reserve the cancel this offer. If you want one... get it now!

During this special marketing test we will be including the following upgrades free with every Tactical Trap order. Keep in mind, these upgrades are only guaranteed today, meaning if you come back to the site tomorrow-they might not be available.

Free Motion Detected LED Light

When you order now... We're going to include in a super cool LED lighting kit for your Tactical Trap. This motion activated LED kit will light up to 10-feet of space and being that it's motion activated... as soon as it opens... the lights go on

It's battery powered so you don't have to run wires or plug it into an outlet. Just insert the batteries and you're good to go. A \$30 value if sold separately, but yours FREE today!

Free Upgraded RFID Locking System

For a limited time (only guaranteed until Wednesday, 30th of October 2019) I'm going to upgrade you from our standard to the new RFID fast action locking system!

Not only does this lock give you better security and faster access...it also allows you to give other people living in your house their own key card (3 included) so they can access the trap when you're not around.

Not only does this lock give you better security and faster access...it also allows you to give other people living in your house their own key card (3 included) so they can access your Trap when you're not around.

Free 3/4 Inch Premium Wood Upgrade

When you order now...your trap will leave our shop made with the finest materials available.. I'm talking... 3/4 premium wood.

Why would you want your shelf built with Premium 3/4 wood instead of the normal 1/2 material everyone else uses? It's the same reason why some people build their house with 2x6 studs instead of 2x4.....

- ▶ **Premium 3/4 wood (the best of the best) is incredibly strong: Not only will your shelf last longer, you can store much more gear inside without fear of it breaking.**
- ▶ **Premium 3/4 wood is more durable so it won't bend or bow or sag, even if your wall isn't perfectly level.**
- ▶ **Premium 3/4 wood will look like a million bucks in any room you put it in. It's the same top quality wood used to build high-end custom kitchen cabinets so it will last a lifetime.**

How Much Does A Tactical Trap Cost?

A lot less than you might think considering furniture quality concealment shelves like ours retail for as much as \$500+. That's not a misprint...the lock alone retails for over \$100. That doesn't even account for the wood carpentry, pneumatic damper, furniture quality finish, LED light, 3/4 wood upgrade and high density foam insert.

It could literally cost you \$300 to build it yourself. That's not a misprint... feel free to call a local cabinet shop and see what they charge by the hour for a CNC work and you'll quickly see you're getting a bargain for the price we are asking.

Plus even if it did cost you \$300 - how can you put a price on you and your family's lives and safety? You can't.... protecting your family, home and property is worth any amount of money.

However, our mission is to strengthen America and get one of these Traps into every good, law abiding, 2nd amendment loving person at a price anyone can afford.

So while supplies last you can get Patriot 35s Tactical Trap with all the upgrades listed on this website for the **rock bottom price of just \$197**

That puts your price lower than wholesale for this model

Why would we offer so inexpensively? The answer is simple...world of mouth. We know when people see a Tactical Trap in your house the first thing they will ask is "where did you get it ". So it's a win-win situation. You get a great price and we get repeat customers.

Here's What You Do Now

Ordering is simple. Just click the "add to cart button" below. What's going to happen next is you'll be taken to our 100% secure server where you can select the color finish you want

and review your order before placing it.

Keep in mind...this special wholesale price and free upgrades are only guaranteed today. If you come back tomorrow and they are gone- this offer is expired. No exceptions.

Save \$100 Off MSRP When You Order Now

(Dimensions 22 1/4" Inches Wide X 10 1/4" Deep Off The Wall X 4" Tall)

Price: ~~\$297...~~ Only \$197. You can pick your color and review your order before placing it on the next page. **Limit 3 per customer.** Sales price guaranteed until **Wednesday October 30th, 2019** or until we're out of inventory.

Thank you,

★★★★★

If I could give you a 10 stars I would. Great shelves. I have shown several people who are interested.

Thomas S
★★★★★

I truly appreciate the workmanship that you put into all of the shelves and flag that I purchased. I got the shelves unfinished and stained them myself, but the flag trap I received already painted is awesome. I am so happy with your products I am interested in purchasing more to sell in my store. My initial thoughts would be to purchase at least 2 of each shelf, and 2 of the red white & blue flags, and 2 of the darker flags.

★★★★★

I have a Tactical Traps shelf installed in my den ? too high for young hands to reach but easy for me to access the contents.? As with most of us who value the ability to protect ourselves and quick access to our firearms, I haven't needed to use what's inside but having it 'at hand' gives me the knowledge that it's there when and if I need it.? The shelf was easy to install and is easy to access (which I do practice) ? I highly recommend the Tactical Trap units for easy access security.? I'd rate the quality and accessibility as a Five Star ? couldn't be better.

★★★★★

I have been searching for some place to have a few of my guns readily available in case of an emergency and I happened to come across your product and was originally kind of iffy on whether the look and quality would be up to standard. Wow, I was pleasantly surprised with the long and shorter versions I bought! The wood is very nice and the quality of it is AAA. The craftsmanship is top notch, perfectly fitted and the concept works very well, opening easily and with the lights that were included, there's no problem seeing in an emergency if your power would happen to be out. The batteries for the lights and unit itself are easy to access and change out, plus the alert system when the batteries are running low is an added peace of mind. The unit opens very smooth and is rock solid. Plus if you have a few guns, etc stashed around your home, this is definitely a nice place to keep them instead of hiding them all over, and mounting them was pretty easy. I'm very happy with my purchase and can say if you're looking for somewhere to keep some items hidden but easily accessible these are for you. Classic looking piece of furniture but very functional! Well done!

★★★★★

I am truly amazed at the quality and craftsmanship put into my tactical trap shelf. I ordered the unfinished wood so I could stain my shelf to match the other cabinets in my man cave. The shelf arrived 100% ready for stain. No additional sanding or filling in trim nail holes. I stained and put on 3 coats of poly and mounted my shelf to the wall. Not only does it match everything it functions as promised! I will recommend tactical traps to anyone looking for excellent quality and top performance concealment.?

Connie Q
★★★★★

My 2 pistol shelves work great and look awesome.? No one would ever know there's a gun hid inside. My only issue is the Freedom Rifle shelf, it ???looks great but will not open with the key card.? I have contacted the company to get further instruction.? But all in all, I love it.

Michelle E
★★★★★

Love our Tactical shelves! They actually look nicer than I thought and add a beautiful floating shelf look to foyer and bedroom! No one would ever know! Also love the light that turns on when opened...great touch!?

Stephen N
★★★★★

The install was fairly simple, it functions great, I only regret that I don't know more people I trust enough to show it off.

Steve P
★★★★★

Love the shelf and the quality of how it was made. I did however have quite a bit of trouble getting it to close because the pin was not lining up. You replied back and told me what to do and it fixed the problem. I would highly recommend this to anyone that has guns to store in and able to have access to when you need it.?

Tim M
★★★★★

I have been to a lot of guns shows and seen a lot of secret shelves ,compartment etc.... and the overall fit and finish and craftsmanship of tactical traps is second to none , I like that it is also very easy to install. I am a custom home builder and we make a lot of our own wood beams,mantels so I don't buy a lot of other people's wood products because they are usually Crap but not tactical traps worth every penny!!!!
